imagine a founding father visiting a classroom today or a sailor from the war of 1812 an amish man a 19th century pioneer or even a civil war veteran ronald morris has spent more than 25 years bringing these characters into classrooms and inspiring other educators to do the same in this book he synthesizes his vast knowledge and experience into a resource for all types of educators who help elementary and middle school children develop a love of history pre service teachers can use this book as a model for developing their own styles of teaching social studies museum educators can use bringing history to life to enliven their presentations with students teachers in the classroom can use this resource to help their students develop first person presentations by reading about many examples across the grades this resource is especially important as school districts reduce their budgets for field trips to popular museums that interpret history using this popular method with this book as inspiration educators can continue bringing history to life for their students

this book offers a different perspective than that found in mainstream us and texas history because it acquaints readers with pre 1836 people places and events the title friendly betrayal aims to capture the spanish mexican texans disappointment when they 1 first welcomed us immigrants to mexico texas as fellow mexicans and 2 how after 1836 the growing anglo saxon majority treated our ancestors as foreigners in their own homeland part i contains a fictionalized storyline that delves into the initial blending of native american and spanish european cultures that produced todays mestizo people due to their genetic cultural not political ties to mexico this group generally called mexican americans in the united states continues to strongly maintain defend and preserve their unique identity history and heritage on this side of the border part ii contains supporting background information

what does it mean to live in the west today do people tend to identify with states with regions or with the larger west this book examines the development of regional identity in the american west demonstrating that it is a regionally diverse entity made up of many different wests great plains southwest rocky mountains and more in which american regionalism finds its fullest expression these fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them wrobel and steiner first offer a compelling overview

of the west's regional nature then thirteen other rising or renowned scholars from history, american studies, geography, and literature tell how regional consciousness formed among inhabitants of particular regions. all of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities. some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature. some even examine western regionalism in areas that lie beyond the west as it has traditionally been conceived. each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger west but also about the constant state of flux in which regionalism exists. many books speak of the west as a place but few others deal with the west's different places. many wests presents a vision of the west that reflects both the common heritage and unique character of each major subregion. building on the revisionist impulse of the last decade to help redirect new western history toward an appreciation of regional diversity and integrate scholarship in the regional subfields, it is a book for everyone who lives in, studies, or loves the west for it confirms that it is home to very different peoples, economies, histories, and regions.

with the nation at war in the 1940s, twenty-two-year-old Jack Valenti flew fifty-one combat missions as the pilot of a B-25 attack bomber with the 12th Air Force based in Italy. in the 1960s, with the nation reeling from the assassination of a beloved president and becoming embroiled in a far different kind of war in Vietnam, he was in that fateful Dallas motorcade in 1963, flew back to Washington with the new president, and for three years worked in the inner circle of the White House as special assistant to President Lyndon Johnson. then, for the next thirty-eight years, with American society and popular culture undergoing a revolutionary transformation, Valenti was the public face of Hollywood. in his capacity as head of the Motion Picture Association of America, he has been there doing that indeed, Texas-born and Harvard-educated Valenti has led several lives, any one of which could have provided ample material for an unforgettable memoir. as it is, this place is the gripping story of a man who saw the terrible face of war while fighting with skill and bravery for his country, who was in the room listening, participating, and remembering as political decisions were made that would benefit or devastate countless lives in this country and on the other side of the world, and who championed the interest of the vast and globally influential movie industry with tenacity and vision. the list of boldface names whom Valenti knew and with whom he worked is as varied as it is astonishing in number. aside from LBJ, there were Jack and Bobby Kennedy, Kirk Douglas, Frank Sinatra, Robert McNamara, Jacqueline Kennedy Onassis, Julia Roberts, Cary Grant, Lew Wasserman, Catherine

zeta jones jack nicholson michael douglas warren beatty and bill clinton to begin a very long list the life of a man who earned both the distinguished flying cross and his own star on the hollywood walk of fame is inherently intriguing but valenti s warm sometimes rueful always engaging account gives this memoir a depth of humanity and a taste of life s unpredictability that will linger long after you turn the final page from growing up poor but largely oblivious to that fact in a hardscrabble neighborhood of greek and italian immigrants in houston to rising to the highest summits both of national government and hollywood this time this place is a candid and clear eyed reflection of the joys and sorrows ambitions and disappointments of a life fully recognizable in its extraordinary variety it is also a sweeping and important historical record written by a brilliantly successful man who helped to shape politics and entertainment in the second half of the twentieth century and who always found himself in the center of the current storm

john wesley stimson was born in 1857 in collin county texas the son of daniel marion and sarah frances abstons stimson he married caroline alexandra cara neely the daughter of john leroy and martha jane chisholm neely in 1878 they had nine children
