for many americans the attack on the world trade center on september 11 2001 was the first time they had considered islam were the terrorists motivated by the true dictates of their religion or had they hijacked islam as well as the planes in a political cause unrelated to the teachings of muhammad christianity islam and atheism argues that islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the west still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions to meet the challenge from islam christians need to know more about the important differences between islam and christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar the time that christians spend in pursuing common ground is time that islamic activists will use to press their radical agenda in addition to challenging both the multicultural and common ground approaches william kilpatrick also exposes the role played by atheists and secularists in advancing islam despite paying lip service to freedom radical secularists serve as enablers of radical islam the civil liberties that the west enjoys are the fruit of christian civilization kilpatrick argues and only a reawakened christianity can defend them against islam's advance

this decisive account of the role of nonviolence in islam and muslim societies both historically and in current times chronicles an often obscured but longstanding pacifist tradition islam means peace understanding the muslim principle of nonviolence today provides a rebuttal to general misperceptions about the religion by documenting its rich tradition of nonviolence to that end the book examines the sources of islam the qur'an the main religious text of islam and the hadith the deeds and sayings of the prophet muhammad it contests the prevalent notion that islam is built on violence in part by illuminating the role of the tolerant mystical tradition of sufism in islam while at the same time examining the misunderstood place of jihad in the religion the book is not however a historical or theological treatise rather it focuses on the tradition of nonviolence in modern muslim societies by spotlighting recent peaceful protest movements in muslim communities the book underscores the truly global and multicultural nature of the islamic tradition of nonviolence the findings here will be invaluable for muslims and non muslims alike revealing an alternative tradition both can embrace

this work a two volume set is the result of over ten years of research in western europe it is not only a historical account of the holocaust but also an analysis of how when where and why it took place as a sub theme and perhaps just as important is the realization that what happened originally to the armenians at the start of the 20th century and continued with the jews of europe was experimentation in the settling of problems with minorities by means of genocide this history and analysis of the holocaust serves as a warning that genocide is becoming a worldwide technique and method of domestic policy

the oxford handbook of postcolonial studies provides a comprehensive overview of the latest scholarship in postcolonial studies while also considering possible future developments in the field original chapters written by a worldwide team of contributors are organised into five cross referenced sections the imperial past the colonial present theory and practice across the disciplines and across the world the chapters offer both country specific and comparative approaches to current issues offering a wide range of new and interesting perspectives the handbook reflects the increasingly multidisciplinary nature of postcolonial studies and reiterates its continuing relevance to the study of both the colonial past in its multiple manifestations and the contemporary globalized world taken together these essays the dialogues they pursue and the editorial comments that surround them constitute nothing less than a blueprint for the future of a much contested but intellectually vibrant and politically engaged field

books for new testament study by clyde weber votaw v 26 p 271 320 v 37 p 289 352

tune up your knowledge of the arab and muslim worlds with this easy to read text the arab american handbook contains useful reference material and comment by a wide variety of participants and observers the book includes a thumbnail history the essentials of islam social insights cultural norms the perfect tool for teachers employers travelers law enforcement government workers and the general public will find that they can quickly penetrate the stereotypes and misconceptions to appreciate the tenor and nuance of arab and muslim life without a better grasp of this subject the citizens of liberal democracies are unsafe at home and at a disadvantage in the global competition for hearts and minds
