the aim of this lavishly illustrated book is to provide an in depth study of the

many medieval peasant houses still standing in midland villages and of their historical context in particular the combination of tree ring and radiocarbon dating detailed architectural study and documentary research illuminates both their nature and their status the results are brought together to provide a new and detailed view of the medieval peasant house resolving the contradiction between the archaeological and architectural evidence and illustrating how its social organisation developed in the period before we have extensive documentary evidence for the use of space within the house nat alcock and dan miles work on medieval peasant houses in midland england has been nominated for the 2014 current archaeology research project of the year

england has a magnificent heritage of timber framed buildings some of which date from the 13th century brown shows how these intricate structures were assembled and identifies the regional characteristics which are an integral part of their charm
