traditionally wordsworth's greatness is founded on his identity as the poet of nature and solitude the wordsworthian imagination is seen as an essentially private faculty its very existence premised on the absence of other people in this title first published in 1987 david simpson challenges this established view of wordsworth arguing that it fails to recognize and explain the importance of the context of the public sphere and the social environment to the authentic experience of the imagination wordsworth's preoccupation with the metaphors of property and labour shows him to be acutely anxious about the value of his art in a world that he regarded as corrupted through close examination of a few important poems both well known and relatively unknown simpson shows that there is no unitary public wordsworth nor is there a conflict or tension between the private and the public the absence of any clear kind of authority in the voice that speaks the poems makes wordsworth's poetry in simpson's phrase a poetry of displacement

the last hundred years have been an era of unprecedented displacements the accelerated drift of rural populations to the metropolis the spread of these cities into successive empires and the resulting diasporas that have forged the modern united states and any number of smaller nations these processes have fostered a poetry of exile and expatriation intimately bound up with the experience and culture of modernity poetry and displacement is a thought provoking and challenging examination of globalized displacement in the work of some of our most critically acclaimed poets including christopher middleton philip larkin and derek walcott

diaspora constitutes a powerful descriptor for the modern condition of the contemporary poet the spokesperson for the psyche of america the poems in american diaspora poetry of displacement focus on the struggles and pleasures of creating a home physical and mental out of displacement exile migration and alienation to fully explore the concept of diaspora the editors have broadened the scope of their definition to include not only the physical act of moving and immigration but also the spiritual and emotional dislocations that can occur as for emily dickinson and other poets even in a life spent entirely in one location more than one hundred and thirty contemporary poets reflect and mediate rage and bless as they tell their own stories in short this is an anthology of american poetry that draws upon the sensitivity

tenderness rebelliousness patience and spirituality that point to the future of our nation

this collection takes the reader on a nomadic journey around the globe and into the more mysterious realms of the heart and spirit these poems explore the joys to be found even in suffering the resilient dignity at the heart of each human being and the thin places where heaven and earth seem to meet based on her experiences as a perpetual pilgrim the poet remembers the scents of her hometown in the himalayas the spicy tastes of a farm meal in china a walk with a refugee friend in sarajevo and a muslim gardener wetting his lips from a hose on a hot day during ramadan in all this she probes deeper questions about the telos of life as a created being and how to carry on in life and faith in the midst of unexplainable suffering in entering into these poems the reader is invited to draw sustaining strength from moments of beauty and divine grace

this book is a refreshing and innovative reading of dennis brutus poetry underlining its concern for suffering humanity in the apartheid context and beyond through a cogent critical analysis of the poetry from a multifaceted perspective the work brings to the fore the different motifs strategies and artistry with which brutus succeeds in initiating revolt through art it explains how the poet's engagement with the poetics of place apartheid laws police brutality questions of travel and language foregrounds these as tropes or metaphors for reinforcing the despicable apartheid image and influencing popular revolt against the system

poems inspire our trust argues james longenbach in this bracing work because they don't necessarily ask to be trusted theirs is the language of self-questioning metaphors that turn against themselves syntax that moves one way because it threatens to move another poems resist themselves more strenuously than they are resisted by the cultures receiving them but the resistance to poetry is quite specifically the wonder of poetry considering a wide array of poets from virgil and milton to dickinson and glück longenbach suggests that poems convey knowledge only inasmuch as they refuse to be vehicles for the efficient transmission of knowledge in fact this self-resistance is the source of the reader's pleasure we read poetry not to escape difficulty but to embrace it an astute writer and critic of poems longenbach makes his case through a sustained engagement with the language of poetry each chapter brings a fresh perspective to a crucial aspect of poetry line syntax figurative language voice disjunction and shows that the power of poetry depends less on meaning than on the way in which it means on the temporal process we negotiate in the act of reading or writing a poem readers and writers who embrace that process longenbach asserts inevitably recoil from the exaggeration of the cultural power of poetry in full awareness that to inflate a poem's claim on our attention is to weaken it a graceful and skilled study the resistance to poetry honors poetry by allowing it to be what it is this book arrives at a critical moment at a time when many people are trying to mold and market poetry into something it is not

through discussion of the ways in which major northern irish poets such as john hewitt

seamus heaney michael longley louis macneice and derek mahon have been influenced by america this study shows how northern irish poetry overflows national borders complicating and enriching itself through cross cultural interaction and hybridity
