this substantial volume is filled with over 140 maps and commentaries detailing the whole of the medieval period from the latter days of rome through to the beginnings of the early modern world each map is designed to address particular themes and answers the needs of students of this period with supporting explanatory texts the selection of maps takes a thorough and broad ranging approach to the study of the middle ages the maps chart a variety of areas including political events military campaigns within europe and in the holy lands the power of the church and the rise of monasticism literacy and the advent of printing art and architecture others cover the financing of state and war the principal trading leagues and trade routes settlements and the increase in urbanism the founding of the earliest universities pogroms and persecutions and events at the frontiers of christendom

covering a thousand years of history this volume tells the story of the creation of western civilization in europe and the mediterranean now available in a compact more convenient format it offers the same text and many of the illustrations which first appeared in the widely acclaimed oxford illustrated history of medieval europe written by expert scholars and based on the latest research the book explores a period of profound diversity and change focusing on all aspects of medieval history from the empires

and kingdoms of charlemagne and the byzantines to the new nations which fought the hundred years war the oxford history of the medieval world also examines such intriguing cultural subjects as the chivalric code of knights popular festivals and the proliferation of new art forms and the catastrophic social effect of the black death

this volume provides a collection of imagined lives individuals who no matter their position on the social hierarchy were crucial to the development of medieval europe and the modern period that followed based on primary source materials and the latest historical research these literary accounts of otherwise unsourced or under sourced individuals are written by leading scholars in the field the book s approach transcends the limitations of both historical narrative and literary fiction offering a research informed presentation of real people that is enriched by informed speculation and creative storytelling this enriched presentation of the lives of these individuals offers the quickest route to understanding medieval culture society and intellectual thought crucially the book treats the whole of europe broadly defined both conventional areas of study such as england and france and also lesser studied but no less important areas such as eastern europe iberia and the balkans the reader of portraits of medieval europe encounters the diversity present in the european past the resulting portraits unique personal and engaging offer not only a wide geographical scope but also perspective on the formation of european society in its fullest form this book is accessible and engaging for students new to medieval history as well as those wishing to expand their knowledge of medieval society

excerpt from the history of medieval europe inasmuch as emigrants from all parts and from all races of europe have long since been coming to the united states and becoming american citizens it has seemed worth while to include the states and racial groups of central and eastern europe as well as the richer medieval history of those western european lands whose institutions and culture have thus far had the greatest influence upon our own in conformity with present tendencies in historical writing economic and social conditions are given due attention and many minor details of military and political history are omitted in these days of tottering thrones i have even ventured to lay the axe at the root of absolutism and to dispense with genealogical tables contemporary events sadly remind us that the age of wars is not past but they have also demonstrated that an intensive study of cæsar s commentaries and the tactics of hasting and crécy is of little use even to the modern military specialist while they have further reminded us that in the art of the past there are precious models and inspirations whose loss is almost irreparable since man is a reasoning and emotional being it is unfair to the past actors and uninteresting to the present readers of history merely to chronicle events without some indication of the ideas and ideals behind them as well as of the personalities that produced them but discussion of economic and intellectual influences should not be carried so far as to reduce the narrative of events in political history to a mere skeleton if wars and politics are to be discussed at all they should be treated with sufficient fullness to insure clearness and interest the background of physical geography is frequently referred to and described in the maps the aim has been to omit confusing detail and to keep them in close accord with the text as a rule all places mentioned in the text and no others are given in the accompanying maps about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
