over the last twenty years research on feminist care ethics has flourished and this collection makes a unique contribution to that body of work drawing on a wealth of practical experience across eight different disciplinary fields the international contributors demonstrate the significance of care ethics as a transformative way of thinking across diverse geographical political and interpersonal contexts from an analysis of global responsibilities to a reimagining of care from the perspective of people with learning disabilities each chapter highlights the necessity of thinking about the ethics of care within policies and practice

biological control of weeds has been practiced for over 100 years and australia has been a leader in this weed management technique the classical example of control of prickly pears in australia by the cactus moth *cactoblastis cactorum* which was imported from the americas helped to set the future for biocontrol of weeds in many countries since then there have been many projects using classical biological control to manage numerous weed species many of which have been successful importantly there have been no serious negative non target impacts the technique when practiced as it is in australia is safe and environmentally friendly economic assessments have shown that biocontrol of weeds in australia has provided exceedingly high benefit to cost ratios this book reviews biological control of weeds in australia to 2011 covering over 90 weed species and a multitude of biological control agents and potential agents each chapter has been written by practicing biological control of weeds researchers and provides details of the weed the history of its biological control exploration for agents potential agents studied and agents released and the outcomes of those releases many weeds were successfully controlled some were not many projects are still underway some have just begun however all are reported in detail in this book biological control of weeds in australia will provide invaluable information for biological control researchers in australia and elsewhere agents used in australia could be of immense value to other countries that suffer from the same weeds as australia the studies reported here provide direction to future research and provide examples and knowledge for researchers and students key features a unique collation of information for australian weed research and management contains all the information about biological control of weeds in australia in one book provides key references for further information will become a well cited publication

critical code contemplates department of defense dod needs and priorities for software research and suggests a research agenda and related actions building

on two prior booksâ summary of a workshop on software intensive systems and uncertainty at scale and preliminary observations on dod software research needs and prioritiesâ the present volume assesses the nature of the national investment in software research and in particular considers ways to revitalize the knowledge base needed to design produce and employ software intensive systems for tomorrow s defense needs critical code discusses four sets of questions to what extent is software capability significant for the dod is it becoming more or less significant and strategic in systems development will the advances in software producibility needed by the dod emerge unaided from industry at a pace sufficient to meet evolving defense requirements what are the opportunities for the dod to make more effective use of emerging technology to improve software capability and software producibility in which technology areas should the dod invest in research to advance defense software capability and producibility

this book the first of a two volume series argues that today stakeholder thinking has evolved into the study of interactive mutually engaged and responsive relationships that establish the very context of doing modern business and create the groundwork for transparency and accountability this book makes it clear that in today s societies successful companies are those that recognize that they have responsibilities to a range of stakeholders that go beyond mere compliance with the law or meeting the fiduciary responsibility inherent in maximizing returns to shareholders if in the past the focus was on enhancing shareholder value now it is on engaging stakeholders for long term value creation the process of engagement creates a dynamic context of interaction mutual respect dialogue and change not a one sided management of stakeholders indeed the authors believe the very term stakeholder management to be outdated and corporate centric companies can manage their relationships with stakeholders but frequently cannot actually manage the stakeholders themselves because as the activist and collaborative initiatives described in this volume suggest company stakeholder relationships are not one way streets and different institutions bring different agendas goals and priorities to the engagement there are clear implications to the way in which stakeholder thinking is unfolding today if in the past corporate social responsibility was simply seen as profitability plus compliance plus philanthropy now responsible corporate citizenship or corporate responsibility means companies being more aware of and understanding the societies in which they operate corporate responsibility means recognising that day to day operating practices affect stakeholders and that it is in those impacts where responsibility lies not merely in efforts to do good companies are now faced with a wide array of challenges that mean that senior executives and managers need to be able to deal with issues including greater accountability human rights abuses sustainability strategies corporate governance codes workplace ethics stakeholder consultation and management stakeholder thinking needs to capture these new realities the global reach of multinational corporations has served to highlight the need for the re integration of business into society relationships into stakeholder relations and ethics into managerial practice the rise in power of global activism involving ngos and global business involving multinational corporations makes it even more critical today for companies to consider the power and interests of corporate stakeholders when

developing strategic plans the interactivity and mutuality of relationships described in this book make it clear that firms and stakeholders share the power and responsibility to influence both the profit potential of the firm and how the benefits of the firm's success impact on society this important volume brings together leading academic thought on stakeholder thinking for the first time unfolding stakeholder thinking will be indispensable to corporate managers ngos and academics seeking greater understanding of the dynamics of stakeholder thinking in a world of rapidly changing responsibilities a companion volume unfolding stakeholder thinking 2 focusing on practical issues such as relationship management communication reporting and performance is also available

strategic management and business policy are changing fast and it generates new ideas innovative strategies practically managing the core resources and the establishment of the key platform for the development of business and brand this book exceptionally fills the gap between theory such as generic grand diversification functional turnaround value chain and tailoring strategy and application of various models to facilitate the practical use of strategies as a strategic tactic to a weapon to deliver world class performance in business this book helps the common man who identifies the key competitor core products services and able to decide and determine appropriate policy and choices for formulating implementing and control and become key strategy consultant for business this book is specially designed for those who are the students of business mba pgdm executives it management businessmen entrepreneurs operating managers middle level managers across the management consultant business executives and business professionals such as director of forecasting and planning forecast manager director of strategic planning director of marketing sales manager advertising manager cfo financial officer controller treasurer financial analyst production manager brand product manager new product manager supply chain manager logistics manager material management manager purchasing agent scheduling manager and director of information systems

adulthood an introduction offers a thorough foundation to learn consolidate and apply developmental concepts and current knowledge to the psychology of adult development it illustrates major ideas with carefully selected research that is widely referenced and topically pertinent to development in early middle and late adulthood this comprehensive text reviews the five domains of development including biological development cognitive development personality development social development and ecological influences in development it introduces multicultural perspectives and contexts in these discussions as well as developmental themes such as nature and nurture early and later experiences and the individual's active role accompanied by learning objectives and section reviews vignettes portray numerous adult experiences and commentaries for students offer additional information and interpretation with the students perspectives in mind designed to encourage students to think critically about topics of adulthood in both academic and applied settings adulthood is appropriate for undergraduate students in psychology and related disciplines such as addiction studies speech pathology criminal justice nursing and business

combined with a complete ancillary package the book provides activities for individuals and groups critical thinking questions vignette specific questions and responses perspectives across disciplines and much more additional resources for both students and instructors are available in the book s support material
