a successful health care unit means meeting patients expectations taking advantage of the latest organizational and technological solutions and at the same time providing financial balance to achieve such a success the units have to put stress on modern methods of management taking into account the cost analysis its structure controlling and caring about income it is surprising why it has been so difficult for the hospitals to implement changes in their organization or management in favorable conditions for innovations is there any opposition to the innovations successfully implemented in other companies and enterprises which makes it impossible to introduce them in polish

hospitals transposing organizational solutions from other fields of economy to medical units is the task not only for the scientists but also for the managers of health care who are responsible for hospitals existence and finding a common ground for cooperation with the representatives from the world of medicine however the latter must join and support the system of management as all its parts are equally important so if one single element of the system seemingly unimportant is inefficient the system collapses
