women and politics with special reference to pris the 73rd constitutional amendment act of 1993 has played a significant part in achieving the goal of inclusive democracy in india it served as the institutional breakthrough towards ensuring equal access and enhanced participation of women in the inclusive democratic process through their participation in the local government at the grassroots level the amendment has greatly contributed to the political empowerment of women from marginalized communities in the rural areas who were not initially very confident of their abilities to assume leadership roles at the grassroots level as the male dominant rural power structure did not budge to lose its traditional grip over the political institutions the present book examines changing role of women from domestic work to grass root level democracy the book contains nine chapters the book is about women s participation in the political sphere women came out in large numbers during the independence and later with the 73rd amendment and reservation their percentage increased a lot it will see women s role in the international sphere too the book will see the developing leadership among women for securing their rights undertaking responsibilities for civil society empowerment and overcoming the barrier to women s development with the help of case studies of various states i have found how women are empowering themselves and also facing violence and challenges in this political field i have also suggested ways through which women can be empowered

debates in the recent times this becomes particularly relevant in an old democracy like india where the state has not been able to meet the need for basic things however the state provides space and freedom for people to engage in collective action to critically evaluate the state's policies and demand a revision in policy for effective implementation of the laws that are elaborately codified in the constitution and also to improve the functioning of its institutions this book studies the level of participation of tribal communities in the new panchayat raj dispensation introduced in andhra pradesh since the pesa act it specifically analyses how much the community has achieved or benefited after the introduction of panchayat raj the objective is to determine how the power structures of tribal communities have been influenced by the socio political changes and institutional innovations like the extension of representative democracy at the grassroots level what kind of changes have taken place in the study area with the institutionalization of panchayats and the politicization of the tribal people by the different parties this book also throws light on the role of civil society actors in influencing governance positively as well as the limitations that have inhibited the impact of their influence the empirical research highlights that the institution of gram sabha has been instrumental in bringing transparency and accountability in the working of local bodies the author has rightly emphasized the need for an attitudinal change both in the political and administrative machinery at state district and village level the inter relationship of the three ds i e democracy decentralisation and development has been brought out beautifully with the support of field study while the 73rd amendment and pesa act of the constitution has mandated the democratization of local self governments the process of decentralisation is yet to take concrete shape through real devolution from lok sabha to gram sabha

the book explores the experiences impact and responses of women in village panchayats in india after a constitutional amendment in 1992 made it mandatory to reserve one third positions for women based on extensive field research with interviews of 1 200 panchayat representatives and community members in madhya pradesh rajasthan and uttar pradesh states usually seen as low on social and gender indicators the book documents awareness motivation perceptions and participation levels of women elected in the first election following the amendment with a follow up survey of the same panchayats in the next two elections this work maps the empowering impact on women's self the attitudes and perceptions of the family and responses of other social institutions it explodes the myth of women's disinterest in politics the entry of only affluent women and relatives of influential politicians and particularly of these women as proxy for their male kin the recent policy announcements reserving more seats for women in panchayats from one third to one half makes this book topical and especially interesting in light of the opposition to the reservation of seats for women in state legislatures and the parliament

this book explores today's changing intellectual climate wherein understanding politics at different levels from global to local is considered mandatory in order to appraise the outcome of nature conservation interventions by carefully examining two such processes the ban on shahtoosh trade and the national afforestation programme in the indian state of jammu and kashmir the book reveals how these processes are influenced by politics at different levels from their introduction at the macro level to their implementation at the micro level and in turn become coloured by the agendas and interests of the various stakeholders involved throughout the book one priority is to give a voice to the poor resource users who have been traditionally dependent on wildlife and forest resources for mere subsistence yet these same people are who bear the brunt of nature conservation costs rather than those actors who are responsible for the most serious violations in pursuit of greater profits contemporary environmental sociology is chiefly characterised by its focus on power relations in resource conservation and management in political ecology literature too especially after recognising the paradoxes and limitations of approaches such as sustainable development sustainable livelihoods and community based natural resource management there is a growing concern for critical analyses of multi level politics in connection with nature conservation the purpose of the book is not to challenge the gravity of environmental concerns but to question the dominance of conservation interests over the subsistence needs of local communities and to strike a balance between environmental and social justice it argues that unless and until more just accountability for the affected populations is ensured conservation policies are unlikely to meet the goals of sustainable resource management given its critical engagement with human nature conflicts in jammu and kashmir the book offers a unique resource for students and scholars of environmental sociology political ecology natural resources management conflict studies and human rights studies

most studies of the so called tribal communities in india stress their social economic and political differences from communities that are

organized on the basis of caste it was this apparent contrast between tribal and caste lifestyle and moreover the paucity of material on tribal groups that motivated the author to undertake this study of a poor tribal community the girasia in northwestern india while carrying out her fieldwork the author soon became aware that the traditional tribe caste categories needed to be revised in fact she found them more often than not to be constructs by outsiders mostly academic of greater importance for an understanding of the girasia was the wider and more complex issue of self perception and identification by others that must be seen in the context of their poverty as well as in the strategic and shifting use of kinship gender and class relations in the region
