el encuentro diario con la palabra a través de la lectio divina tiene pleno sentido en sí mismo y es un medio extraordinario para que cada creyente se disponga a la escucha atenta de la palabra pero además la lectura del evangelio de la misa se orienta también a la preparación previa de la celebración de la eucaristía a es en ella donde se dan las condiciones genuinas para una auténtica meditación en clave personal pastoral y comunitaria este volumen se centra en los días de adviento y navidad

el presente volumen aborda el análisis de los procesos electorales de ámbito presidencial y legislativo celebrados en América Latina en el bienio 2014-2015. Se trata de elecciones celebradas en once países cuyo estudio se desarrolla en igual número de capítulos. Los mismos cubren comicios simultáneos a ambas instancias en Argentina, Bolivia, Brasil, Costa Rica, Guatemala, Panamá y Uruguay, en El Salvador y en Colombia, aunque se celebraron en tiempos distintos. Ambos tipos de comicios se consideran en el mismo capítulo. Tanto las presidenciales como las legislativas precedieron a las legislativas con una diferencia en el primer país y las legislativas antecedieron por tres meses a las presidenciales en el segundo. Se recogen también en el capítulo independientes las elecciones nómadas legislativas de México y Venezuela. Si bien el criterio temporal siempre puede calificarse de caprichoso en este caso sigue la preocupación iniciada hace ocho años de dar cumplida cuenta del acontecer electoral en la región y en el ámbito de los dos poderes representativos del estado por excelencia. En efecto, este volumen da continuidad a anteriores trabajos del bienio anterior, analizado da cabida a un nivel promedio de elecciones presidenciales si se tiene en cuenta el acumulado en la región y desde hace 30 años por lo cual es representativo del quehacer político latinoamericano. Asimismo, la tabla 1 recoge las 117 elecciones presidenciales que se han llevado a cabo en la región entre 1986 y 2015, cuyo resultado no fue cuestionado en media de cuatro procesos electorales por año y que la tabla 2 recoge son nueve.

This edited volume explores the context in which the Spanish party Podemos operates as both an agent and product of political cycles. It provides an account of the party's genealogy, ideological environment and relation to other political initiatives in Latin America and Western Europe. The contributors address the multiple dynamics generated by Podemos as a new party developed out of the economic crisis, the structural crisis concerning social democracy and the incarnation of the welfare state project and more generally out of the left. It will appeal to upper level students and scholars interested in Spanish politics, history, culture and sociology.

This book may seem a simple accumulation of twenty-one public space projects in eight Latin American cities. On closer inspection, the presentation of project descriptions, photographs and annotated drawings reflects a concern to analytically explain the operative aspects at work. The publication is not intended to serve only as a catalogue guide or manual on how to produce public space in spontaneous settlements; rather, it goes beyond the aims of an index of best practices. It is intended instead as an empirical base for a critical and theoretical engagement with the problematic of development, social inclusion, public investment in formal settlement, civil society and the public sphere. The publication achieves its final function at this third level by providing a compelling argument to expand the agency of architects and urban designers and creatively find ways of justifying financing and building public spaces in communities that have a catalytic effectiveness in achieving significant urban and social transformation. This book was awarded by a Graham Foundation grant and CAF Development Bank of Latin America.
