this is the most complete critical survey to date of women s literature in nineteenth century france  
alison finch s wide ranging analysis of some 60 writers reflects the rich diversity of a century that begins with mme de staël s

cosmopolitanism and ends with Rachilde's perverse eroticism. Finch's study brings out the contribution not only of major figures like George Sand but also of many other talented and important writers who have been unjustly rejected including Flora Tristan, Claire de Duras and Delphine de Girardin. Her account opens new perspectives on the interchange between male and female authors and on women's literary traditions during the period. She discusses popular and serious writing: fiction, verse, drama, memoirs, journalism, feminist polemic, historiography, travelogues, children's tales, religious and political thought. Often brave, innovative texts linked to women's social and legal status in an oppressive society. Extensive reference features include bibliographical guides to texts and writers.

Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English and even if we don't read we would have seen film and television versions. Think of *Monte Cristo* and even a musical rendition *Les Mis*. So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present. It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains. Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors, dozens of significant works, the various styles mentioned above and many others, events that have impacted literature such as the Dreyfus affair and the Algerian War and literary prizes. The chronology manages to cover about 1200 years of literary output and the introduction sets it all out neatly from one historical and literary period to the next. The bibliography broken down by period and author directs us to further reading in both French and English.

This collection of papers on functional syntax shows the development of a specific stream of functional linguistics initiated by Susumu Kuno of Harvard University, inspired by Prague School linguists such as Jan Firbas and Vilém

mathesius kuno developed a more comprehensive and theory oriented approach and linked it with the american formalist approach of generative grammar his approach is thus a unique combination of functionalism and formalism that constantly urges the promotion of interactions between these two major trends in linguistics the papers in this collection coherently deal with functional aspects of linguistics from a wide variety of perspectives such as theoretical applicational experimental and diachronic aspects incorporating the functional concept advocated by kuno
