the hm learning and study skills program level ii was designed to provide an introduction to learning and study skills for 8th 9th and 10th grade students through a series of activity oriented units the level ii teacher s guide includes a pretest a wide variety of teaching suggestions unit summaries activities for retrieval and closure as well as teaching adaptations through the use of technology it was published to help teachers assist students in the development of essential study skills and to reinforce their existing strategies that work it is structured on the assumption that an activity oriented lesson is the most effective instructional strategy for the teaching of study skills or more succinctly that learning by doing is the best way to study smart

like its predecessors volume iii of the handbook for teaching introductory psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom it contains an organized collection of articles from teaching of psychology top the official journal of the society for the teaching of psychology division 2 of the american psychological association volume iii contains 89 articles from top that have not been included in other volumes another distinction between this volume and its predecessors is its emphasis on testing and assessment the book is divided into two sections section one issues and approaches in teaching introductory psychology contains 52 articles on critical issues such as how to approach the course understanding students interests perceptions and motives students existing knowledge of psychology including their misconceptions a comparison of introductory textbooks and tips on how to evaluate them test questions and student factors affecting exam performance an overview of different forms of feedback giving extra credit and how to deal with academic dishonesty section two consists of 37 articles that present demonstrations class and laboratory projects and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline this section is organized so as to parallel the order of topics found in most introductory psychology textbooks intended for academicians who teach the introductory psychology course and or oversee grad assistants who teach the course all royalties of the book go directly to the society for the teaching of psychology to promote its activities to further improve the teaching of psychology

the current trend toward machine scoring of student work ericsson and haswell argue has created an emerging issue with implications for higher education across the disciplines but with particular importance for those in english departments and in administration the academic community has been silent on the issue some would say excluded from it while the commercial entities who develop essay scoring software have been very active machine scoring of student essays is the first volume to seriously consider the educational mechanisms and consequences of this trend and it offers important discussions from some of the leading scholars in writing assessment reading and evaluating student writing is a time consuming process yet it is a vital part of both student placement and coursework at post secondary institutions in recent years commercial computer evaluation programs have been developed to score student essays in both of these contexts two year colleges have been especially drawn to these programs but four year institutions are moving to them as well because of the cost savings they promise unfortunately to a large extent the programs have been written and institutions are installing them without attention to their instructional validity or adequacy since the education software companies are moving so rapidly into what they perceive as a promising new market a wider discussion of machine scoring is vital if scholars hope to influence development and or implementation of the programs being created what is needed then is a critical resource to help teachers and administrators evaluate programs they might be considering and to more fully envision the instructional consequences of adopting them and this is the resource that ericsson and haswell are providing here

When people should go to the books stores, search opening by shop, shelf by shelf, it is in point of fact problematic. This is why we
