the most comprehensive extensively illustrated book focusing on chiropractic principles diagnosis and treatment a doody s core title for 2019 5 star doody s review this is the third edition of one of the chiropractic profession s most important and influential books it is a

compendium of hard scientific knowledge about all aspects of chiropractic from the social and historical to the clinical and research oriented it is a significant expansion from the second edition which was published in 1992 quite some time ago it contains five major sections introduction to principles of chiropractic introduction to chiropractic theory introduction to the clinical examination introduction to specific treatment methods and introduction to management of specific disorders the book exceeds all expectations the author had for it i consider this the most essential of all chiropractic texts one that all chiropractors should obtain doody s review service developed as the core textbook for the chiropractic student and as a professional reference this text presents theory philosophy and practice principles of chiropractic covers both traditional and newer chiropractic techniques as well as the clinical exam and management of specific disorders

clinical exercise physiology third edition provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease and addressing diseases and populations that clinical exercise physiologists encounter in their work

the story of an academic discipline is usually conveyed in grand movements and long spans but it can also be told through the lives of individual scholars through the development of specialties through the creation and change of departments and through the formation and transformation of organizations using twelve histories of micro dimensions of communication studies this volume shows how sometimes small decisions single scholars individual departments and marginalized voices can have dramatic roles in the history and future of an academic discipline as a compilation of micro histories with macro lessons this volume stands alone in communication studies read as a companion to a century of communication studies the national communication association s centennial volume it offers rich detail missing links and local narratives that fully flesh out the discipline in either case no education in communication studies is complete without an understanding of the themes challenges and triumphs embodied by the twelve micro histories offered in this book this book was originally published as two special issues of review of communication
