papers chiefly in the indian context presented at the conference held at indian institute of technology guwahati during dec 10 12 2005 organized by the dept of design in collaboration with the international ergonomics association and indian society of ergonomics

the notion of transversity in hadronic physics has been with us for over 25 years intriguing though it might have been for much of that time transversity remained an intangible and remote object of interest principally to a few theoreticians in recent years transversity and transverse spin effects in general have grown as both theoretical and experimental areas of active research this increasing attention has now matured into a thriving field with a driving force of its own the ever growing bulk of data on asymmetries in collisions involving transversely polarised hadrons demands a more solid and coherent theoretical basis for its description indeed it now appears rather clear that transversity and other closely related properties play a significant role in such phenomena as part of a ministry funded inter university research project this workshop was organised to gather together experimentalists and theoreticians engaged in investigating the nature of transverse spin in hadronic physics with the intent of favouring the exchange of up to date theoretical and experimental ideas and news on the subject over 70 physicists took part and very nearly all the major experiments involved in transverse spin studies were officially represented as too were the main theory groups working in the field new results and new analyses sparked many interesting and lively discussions

electronic publishing is continuously changing new technologies open new ways for individuals scholars communities and networks to establish contacts exchange data produce information and share knowledge on a variety of devices from personal computers to mobile media there is an urgent need to rethink electronic publishing in order to develop and use new communication paradigms and technologies and to devise a truly digital format for the future this book presents the conference proceedings of the elpub 2013 conference held in karlskrona sweden in june 2013 the main theme of the conference is extracting and processing data from the vast wealth of digital publishing and the ways to use and reuse this information in innovative social contexts in a sustainable way the

conference brings together researchers and practitioners to discuss data mining digital publishing and social networks along with their implications for scholarly communication information services e learning e businesses the cultural heritage sector and other areas where electronic publishing is imperative the book is divided into three sections full research articles full professional articles and extended abstracts each section is further subdivided into data mining and intelligent computing publishing and access and social computing and practices focusing on key issues surrounding the development of methods for gathering and processing information and on the means for making these data useful and accessible this book will be of interest to the whole digital community

this book constitutes the refereed proceedings of the 8th international conference on flexible query answering systems fqas 2009 held in roskilde denmark in october 2009 the 57 papers included in this volume were carefully reviewed and selected from 90 submissions they are structured in topical sections on database management information retrieval extraction and mining ontologies and semantic web intelligent information extraction from texts advances in fuzzy querying personalization preferences context and recommendation and as a stream

information security is everyone s concern the way we live is underwritten by information system infrastructures most notably the internet the functioning of our business organizations the management of our supply chains and the operation of our governments depend on the secure flow of information in an organizational environment information security is a never ending process of protecting information and the systems that produce it this volume in the advances in management information systems series covers the managerial landscape of information security it deals with how organizations and nations organize their information security policies and efforts the book covers how to strategize and implement security with a special focus on emerging technologies it highlights the wealth of security technologies and also indicates that the problem is not a lack of technology but rather its intelligent application

th the 13 edition of the international conference on reliable software technologies ada europe 2008 marked its arrival in italy by selecting the splendid venue of venice it did so after having been hosted twice in switzerland spain and the uk montreux for its

inauguration in 1996 and geneva in 2007 santander in 1999 and palma de mallorca in 2004 london in 1997 and york in 2005 and having visited sweden uppsala 1998 germany potsdam 2000 belgium leuven 2001 austria vienna 2002 france toulouse 2003 and portugal porto 2006 it was certainly high time that the conference came to italy the conference series which is run and sponsored by ada europe chooses its yearly venue following two driving criteria to celebrate the activity of one of its national member societies in a particular country and or to facilitate the formation or the growth of a national community around all aspects of reliable software technologies the success of this year s conference beside the richness of its technical and social program will thus be measured by its lasting effects we can only hope that the latter will be as good and vast as the former owing to the absence of a national society associated with ada europe in italy the organization of the conference was technically sustained by selected members of the board of ada europe its governing body with some invaluable local support

this is a book about children who have to grow up apart from their biological parents the impact of this on their lives and on those who look after them and how we can respond to the challenges this poses in order that they can grow and develop in healthy directions it provides a systemic framework to describe working with children and adults who are or have been in care or adopted as well as working with their adoptive parents and carers highlighting their own narratives and those of professionals working with them the authors have tried to make space for multiple voices to speak and describe aspects of the care system and life beyond there are contributions from those who have been brought up away from their biological parents their adoptive parents and foster or kinship carers there are also contributions from researchers and professionals with expertise in working with children in substitute care who describe their theoretical and clinical approaches privileging the voices of those with whom they work

focuses solely on the evolution and potential impact of the trilateral coordination and oversight group tcog as an alliance building tool
