this book focuses on how companies are innovating with regard to the bottom of the pyramid bop the lowest socio economic segment and the organizational conditions they need to be successful the authors use several examples of disruptive innovations for this market particularly in the indian healthcare sector low cost specialty hospital chains like aravind eye care and narayana hrudayalaya have brought down the cost of certain medical procedures significantly the indian conglomerate tata group and the american healthcare giant ge healthcare have also developed affordable products targeted at the lowest income segments in india the authors present an in depth analysis of these companies and present their insightful results on disruptive innovation and the ever

challenging bop market

as developed economies enter a period of slower growth emerging economies such as india have become prime examples of how more can be achieved with less bringing together experience and expertise from across the healthcare industry this book examines innovations that can bring about real advances in the healthcare industry innovations in h

it is not in the us interest to adopt tax and regulatory policies that would discourage global engagement by us multinational corporations mncs research presented in this book shows that the expansion of foreign affiliates of us mncs is positively associated with more production greater employment higher exports and more research and development r d in the united states these findings suggest that less investment abroad by us firms would weaken not strengthen the us economy this analysis by no means implies that there are only winners and no losers from outward investment changing patterns of mnc investment like changing patterns of technology and production more generally contribute to job losses and dislocations for some workers and to new opportunities for others to benefit the us economy and us workers most broadly the united states will want to search for ways to strengthen the appeal of the united states as a base for the operations of international firms high among the recommendations to accomplish this the united states should adopt a territorial tax system like the great majority of developed countries

innovation is no longer the exclusive domain of the silicon valley elite reverse innovation will open your eyes to the fact that the dynamics of global innovation are changing and if you want your firm to survive you d better pay attention the gap between rich nations and emerging economies is closing no longer will innovations travel the globe in only one direction from developed to developing nations they will also flow in reverse ceos of the world s most influential companies agree and have cited reverse innovation as their playbook for the next generation of global growth
