place and the moving image offers a rethinking of how experimental film and especially essay film practices engage with spatial knowledge and environmental awareness at its heart is the concept of moving image topography a critical and artistic model for thinking with the moving image about the relation between technological forms and place structures and how these shape our experience of environments whether natural built and lived responding to urgent questions in eco media and artistic research elisabeth brun argues that place is not merely a setting or backdrop but a critical generative force in experimental film a vital lens for understanding the eco critical and epistemological potential of moving image arts and their modes of thinking through a rigorous and interdisciplinary approach that combines theory close readings of essayist and materialist film practices and artistic research in her sub arctic home village brun explores how the moving image can render visible the often invisible dynamics between perceptual experience spatial environments and technological mediation rather than treating theory and practice as separate domains this book shows how both emerge from the same topographical foundation at stake is not only how to understand film but how we understand our own grounding the inseparability of earth s textures and our forms of experience through which perspective itself can be re gained it will engage scholars artists and practitioners interested in place environmental aesthetics indigenous perspectives and critical film practice across fields such as film and media studies visual art design architecture and philosophy the experimental film 3xshapes of home 2020 is central to this study and is included as a routledge online support material to this book

in extending the traditional field of word and music studies to include research on film and other forms of moving visualizations this volume focuses on innovative discussions of artistic works showing relationships between three individual communicative media this trifocal interdisciplinary perspective is reflected in seventeen essays that cover the historical space from the 19th to the 21st centuries and discuss a

wide variety of individual genres in the represented media these range from parisian cabaret to revolutionary peking opera from silent film to holocaust narration from documentary propaganda movies to opera film interludes and more the investigation of historical cases is broadened by reflections on theoretical and functional issues primarily in film music which show a remarkable breadth of technical and perceptual varieties the essays here collected are of relevance to scholars and students of film studies musicology and literature as well as readers generally interested in intermediality studies

this book explores the relationship between tourism and the moving image from the early era of silent moving pictures through to cinema as mass entertainment it examines how our active and emotional engagement with moving images provides meaning and connection to a place that can affect our decision making when we travel it also analyses how our touristic experiences can inform our film viewing a range of genres and themes are studied including the significance of the western espionage road and gangster movies along with further study of film studio theme parks and an introduction to the relationship between gaming and travel this book will appeal to tourism scholars as well as film studies professionals and is written in an accessible manner for a general audience

in mapping the moving image pasi valiaho offers a compelling study of how the medium of film came to shape our experience and thinking of the world and ourselves by locating the moving image in new ways of seeing and saying as manifest in the arts science and philosophy at the turn of the twentieth century the book redefines the cinema as one of the most important anthropological processes of modernity moving beyond the typical understanding of cinema based on optical and linguistic models mapping the moving image takes the notion of rhythm as its cue in conceptualizing the medium's morphogenetic potentialities to generate affectivity behaviour and logics of sense it provides a clear picture of how the forms of early film while mobilizing bodily gestures and demanding intimate affective engagement from the viewer emerged in relation to bio political investments in the body the book also charts from a fresh perspective how the new gestural dynamics and visuality of the moving image fed into our thinking of time memory and the unconscious

this book presents an ecophilosophy of cinema an account of the moving image in relation to the lived ecologies material social and perceptual relations within which movies are produced consumed and incorporated into cultural life if cinema takes us on mental and emotional journeys the author argues that those journeys that have reshaped our understanding of ourselves life and the earth and universe a range of styles are examined from ethnographic and wildlife documentaries westerns and road movies sci fi blockbusters and eco disaster films to the experimental and art films of tarkovsky herzog malick and brakhage to youtube s expanding audio visual universe

from the proto cinematic sequencing of animal motion in the nineteenth century to the ubiquity of animal videos online the histories of animal life and the moving image are enigmatically interlocked animal life and the moving image is the first collection of essays to offer a sustained focus on the relations between screen cultures and non human animals the volume brings together some of the most important and influential writers working on the non human animal s significance for cultures and theories of the moving image it offers innovative analyses of the representation of animals across a wide range of documentary fiction mainstream and avant garde practices from early cinema to contemporary user generated media individual chapters consider king kong the birds the misfits the cove grizzly man and microcosmos the work of sergei eisenstein robert bresson malcolm le grice peter greenaway carolee schneemann and isabella rossellini and youtube stars christian the lion and maru the cat

addresses the relationship between cinema and photography during the 20th century it comes out of a dialogue between historians from both fields equally represented in the table of contents it opens the field of study beyond the domains of art and cinephilia to take into account the social uses of images of popular media and of a diversity of discursive fields from medicine to pedagogy it aims to move beyond general aesthetic considerations to deal with specific historical objects including discourses back cover

in their use of home movies collages of photographs and live footage moving image artists explore the wish to see dead loved ones living this study closely explores emotions and sensations surrounding mortality and longing with new readings of works by agnès varda pedro

almodóvar ingmar bergman sophie calle and many others

traces the lineage of moving image installation through architecture painting sculpture performance expanded cinema film history and countercultural film and video

this book addresses the preoccupation with memory in contemporary artists moving image installations it situates artists moving image in relation to the transformations of digitalization as hybrid intermedial combinations of analogue film video and digital video emerge from mid 1990s onwards while film has always been closely associated with the process of memory this book investigates new models of memory in artists remediation of film with video and other intermedial aesthetics beginning with a chapter on the theorization of memory and the moving image and the diverse genealogies of artists film and video the following chapters identify five different mnemonic modes in artists moving image critical nostalgia database narrative the echo chamber documentary fiction and mediated memories stan douglas steve mcqueen runa islam mark leckey and elizabeth price are of a generation that has lived through the transition from analogue to digital their emphasis on the nuances of intermediality indicates the extent to which we remember through media

make a cat an acrobat see a man breakdance make a frog leap and the sun come out from behind the clouds an umbrella open to keep off the rain a chicken and an egg vying to come first and much more today we are surrounded by moving images on film tv and computer however before the beginnings of modern day cinema in 1895 optical toys were used to create moving images they were very popular in victorian times with both children and adults and remain a source of wonder today this book provides colourful paper models that are easy to make with designs for some of the major optical toys that were part of the development of film and tv three thaumatropes two phenakistoscopes with 2 designs each one zoetrope with up to three designs one flick book with two designs and a number of pen rollers with notes on the history of moving images and tips and methods to make your own moving images using the same designs hours of fun can be had for all
