action learning and action research deepens understanding and contributes to new knowledge about the theory practice and processes of action learning al and action research it clarifies what constitutes al ar in its many forms and what it is not

metacognition in action insights into learning ai and self regulation presents a timely and interdisciplinary examination of how reflective thinking influences learning emotional regulation and intelligent systems this edited volume brings together insights from education psychology

and artificial intelligence to show how metacognitive strategies enhance digital learning environments foster self regulation and support mental well being readers will discover how metacognition operates across diverse contexts from ai supported classrooms to therapeutic frameworks making this book an essential resource for educators researchers clinicians and technologists with its clear structure and wide ranging perspectives the volume highlights the transformative power of metacognitive awareness in navigating complex cognitive tasks making ethical decisions and fostering adaptive growth whether your interest lies in cognitive frameworks digital pedagogy or the intersection of ai and human thought metacognition in action insights into learning ai and self regulation provides both practical insights and conceptual clarity for understanding and applying metacognition in the twenty first century

this book presents a comprehensive guide to applying meier and boivin s self in relationship psychotherapy model to clinical work with individuals couples families and children the central theme of the book is that the paradigm of affects cognitive processes and behaviors that informs current psychotherapy approaches needs to be broadened to include core self relational and physical intimacy needs as motivating factors in psychotherapy drawing on multiple influences including relational psychoanalysis the authors illustrate how to work with core needs when providing therapy to children and adults they establish that core needs are universal and their realizations are essential for healthy living and argue that clients achieve the healthiest outcomes by finding a way to balance the self alongside their relations with others the concept of core self relational and physical intimacy needs is what binds all the chapters in this book and makes it unique among psychotherapy approaches with a clear transtheoretical approach and rich clinical vignettes this book is core reading for any psychotherapists psychoanalyst or practicing psychologists

this book brings together current research and adopts a pragmatic approach to modeling and using context to solve real world problems the editors were instrumental in creating and continue to be involved in the interdisciplinary research community centered around the biennial context international and interdisciplinary conference on modeling and using context conference series focused on studying context and its implications for artificial intelligence software applications psychology philosophy linguistics neuroscience as well as other fields the first three chapters lay the foundations looking at the lessons learned over the past 25 years and arguing for a continued shift toward more pragmatic approaches the remaining chapters contain contributions to pragmatic context based research from a wide range of domains including technological problems such as subway incident management and autonomous underwater vehicle control identifying emotions from speech without understanding the words anonymization in a world where privacy is increasingly threatened teaching in context and improving management teaching in a business school

this book deals with a central problem throughout the legal profession a solution to the problem is sought and reached in some basic form at the centre of this problematic is the question indicated

by the title what is the nature of discovery in legal decision making in the final chapter that problem and the solution reached will be seen to have ramifications throughout the entire field of legal practice and theory however the focus of the argument is maintained first to specify adequately the particular manifestation of the problem in a variety of legal fields and secondly to arrive at a precise basic solution to this range of problems the presentation of the solution is not dictated by the norms of clarity and coherence but by the dynamics of the struggle to reach the solution and by aspects of the problem available to various sub groups within the legal profession theorists judges arbitrators so i begin from a relatively familiar zone discussions of discovery in legal theory before moving to more unfamiliar territory this book is not a thorough survey of problems and writings on discovery rather the strategic selection of problems and assessment of solutions across the first four chapters represents four aspects of the problem those chapters invite the reader to rise to the sense of occurrence of a single problem in a variety of contexts

the present work is an attempt to give with fair detail a sketch of naval warfare in the period of transition which has followed the introduction of steam p xvii

principles and practice of psychiatric nursing 8th edition provides comprehensive coverage of psychiatric nursing beginning with fundamental coverage of all key psychiatric nursing principles it goes on to address the complete continuum of care including mental health promotion and illness prevention crisis intervention and psychiatric rehabilitation and recovery the book then applies psychiatric nursing principles to specific clinical disorders based on adaptive maladaptive coping responses the six step nursing process and dsm iv tr and nanda diagnoses subsequent chapters describe various modalities of treatment psychopharmacology somatic therapies cognitive and behavioral therapies managing aggressive behavior and more hospital based and community based care and treatment of special populations

issues for 1896 1900 contain papers of the aristotelian society
