contains the proceedings of the 7th international conference on age information management waim 2006 the papers are organized in topical sections on indexing xml query processing information retrieval sensor networks and grid computing peer to peer systems services searching caching and moving objects clustering and more this book constitutes the refereed proceedings of the 7th international conference on age information management waim 2006 held in hong kong china in june 2006 the 50 revised full papers presented were carefully reviewed and selected from 290 submissions the papers are organized in topical sections on indexing xml query processing information retrieval sensor networks and grid computing peer to peer systems services searching caching and moving objects temporal database clustering clustering and classification data mining data stream processing xml and semistructured data data distribution and query processing and advanced applications

this handbook presents a comprehensive and contemporary compendium of the field of cross cultural management ccm examining emerging topics such as bi multi culturalism migration religion and more all considered from a global perspective

this textbook draws on international contributors with a range of backgrounds to explore engage with and challenge readers in understanding the many aspects and elements that inform and influence contemporary nursing practice with a focus to the future this book explores the challenges facing health services and presents the arguments for a nursing contribution and

influence in ensuring safe and quality care readers are supported to explore how as individuals they can shape their personal nursing identity and practice the structure of the text is based on the belief that an individual nurse's professional identity is developed through an interaction between their personal attributes and the influences of the profession itself reflecting this approach the authors engage in a conversation with the reader rather than simply presenting a series of facts and information organised around a series of topical and pertinent questions and drawing on perspectives from policy education and practice the book explores a diverse range of topics such as how historical and popular media representations of nursing hold back nursing practice today the opportunities presented through education and nursing role development to increase the nursing contribution to health services the economic and political influences on nursing and health care how the professional regulation of nurses and core values informs your practice ways to define and develop your own strong nursing identity central chapter questions provide ideal triggers for group discussions in class or online and equally as discussion topics between colleagues to support ongoing professional development there is an emphasis throughout nurses and nursing on challenging thinking to recast nursing practice for the future by encouraging the reader to explore and create their emerging nursing identity or re-examine previously long held views this text supports the reader to better understand health care nursing and most importantly themselves as nurses

description python was a language designed to be simple and help scientists to improve the way they prepare and analyse data in their projects over the last two decades it went through a bumpy ride and evolved into a very powerful language being used by so many people from programming enthusiasts treating it as a hobby to very big enterprise companies all around the world this book offers a practical journey through python programming starting with core concepts like scripting object oriented programming and functional programming you will then set up an efficient development environment and build increasingly complex projects create interactive applications like chatbots and voice controlled systems and delve into data driven projects including financial analysis web scraping and cryptocurrency trading explore security by building a virus detection system and a web gateway finally extend your skills to mobile app development and image processing with qr code manipulation through hands on projects you will gain a versatile skillset applicable to various real world domains by the end of this book you will have the skills to tackle a variety of real world projects you will also develop practical skills that extend

beyond theoretical knowledge enabling you to confidently apply your newfound expertise to solve complex problems and create innovative solutions in a creative way what you will learn get started with the fundamentals of python programming and set up your coding environment build chatbots scrape websites for data and create a youtube downloader understand security and finance by learning to analyze expenses and even make your own virus scanner develop voice controlled apps secure websites and build mobile apps create programs to centralize calendars monitor websites and automate online shopping generate qr codes and analyze trends in digital currencies who this book is for this book will target both beginners and advanced learners aiming to teach how to use python for modern programs it has a structure that balances foundational concepts with advanced techniques and real world applications this book would be perfect for anyone looking to master python and use it for building modern applications across a variety of domains table of contents 1 python 101 2 setting up python environment 102 3 designing a conversational chatbot 4 developing app to analyze financial expenses 5 building non blocking crawler 6 create your own virus detection system 7 create your own crypto trading platform 8 construct your own high tech loudspeaker 9 make a music and video downloader 10 make a program to safeguard websites 11 centralizing all calendars 12 developing a method for monitoring websites 13 making a low cost fully automated shopping app 14 python goes mobile 15 qr generator and reader 16 app to keep track of digital currencies

making a world of difference provides a context for the whole debate about the relationship of people and computers it looks at the role of is it in a modern society and the way it impacts on people companies economics etc

in this open access publication it is shown that sustainable low carbon development is a transformative process that constitutes the shifting from the initially chosen or taken pathway to another pathway as goals have been re visited and revised to enable the system to adapt to changes however shifting entails transition costs that are accrued through the effects of lock ins that have framed decisions and collective actions the uncertainty about these costs can be overwhelming or even disruptive this book aims to provide a comprehensive and integrated analytical framework that promotes the understanding of transformation towards sustainability the analysis of this book is built upon negotiative perspectives to help define design and facilitate collective actions in order to execute the principles of sustainability

the definitive work in d i research now completely updated and expanded dissemination and implementation research in health is a practical guide to making research more consequential a collection assembled and written by today s leading d i researchers

world regions in global context presents a strong global sensibility and an emphasis on current concerns with models of interdependent development spatial and social inequality and questions of spatial justice the authors maintain that regions are the outcomes of a set of twin forces of globalization and regionalization therefore each regional chapter stresses the global systems of connection that drive unique regional processes making regions different by studying regions students not only learn the critical elements of different places but also come to understand the fundamental p

james midgley provides a broad overview of social welfare outlining key institutions terminology historical research and approaches he also details reasons for the existence of international social welfare and the challenges that arise from it the author includes an important section on applied international social welfare that addresses the concerns of practitioners concerns that have been neglected in much of the literature in the field an entire section of the book is devoted to issues of social work practice social development the activities of international agencies and their collaborative efforts while practical application is an important focus of the book several chapters deal with key theoretical debates in the field the author also includes descriptive chapters that provide comprehensive accounts of world social conditions and social welfare institutions as a textbook on international social welfare social welfare in global context is primarily intended for students and practitioners of social work social administration and social policy but it is also relevant for students of sociology public policy and economics

the contributors to this volume offer a comprehensive theoretical critique of the closed and introspective approaches which both define and determine contemporary australian defence and security policy they critically assess the basic assumptions of mainstream security thinking challenging existing orthodoxies and means of framing reality the authors call on policy makers academics and others working on defence and security issues to think more critically and theoretically to begin to ask some of

the difficult questions that are being raised in other disciplines and finally to recognise and accept the contested and problematic nature of many of the concepts that they advance as if they were self evident discourses of danger is a timely and provocative book which complements and advances the work of the secure australia project and other critics of the australian security mainstream back cover
