through overpowering warfare

economics is the nexus and engine that runs society affecting societal well being raising standards of living when economies prosper or lowering citizens through  
class structures when economies perform poorly our society only has to witness the booms and busts of the past decade to see how economics profoundly affects  
the cores of societies around the world from a household budget to international trade economics ranges from the micro to the macro level it relates to a breadth of  
social science disciplines that help describe the content of the proposed encyclopedia which will explicitly approach economics through varied disciplinary lenses  
although there are encyclopedias of covering economics especially classic economic theory and history the sage encyclopedia of economics and society emphasizes  
the contemporary world contemporary issues and society features 4 volumes with approximately 800 signed articles ranging from 1 000 to 5 000 words each are  
presented in a choice of print or electronic editions organized a to z with a thematic reader s guide in the front matter groups related entries articles conclude with  
references future readings to guide students to the next step on their research journeys cross references between and among articles combine with a thorough  
index and the reader s guide to enhance search and browse in the electronic version pedagogical elements include a chronology of economics and society resource

guide and glossary this academic multi author reference work will serve as a general non technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens

originating from the bestselling gifted talented rm series this book will show parents how to stimulate their children s critical and creative thinking skills during the important early years this newly revised edition features innovative activities and extensive resources to help parents develop and encourage their children s unique interests and talents

the arrival of immigrants on america s shores has always posed a singular problem once they are here how are these diverse peoples to be transformed into americans the americanization movement of the 1910s and 1920s addressed this challenge by seeking to train immigrants for citizenship representing a key element of the progressives search for order in a modernizing america frank van nuys examines for the first time how this movement in an effort to help integrate an unruly west into the emerging national system was forced to reconcile the myth of rugged individualism with the demands of a planned society in an era convulsed by world war and socialist revolution the americanization movement was especially concerned about the susceptibility of immigrants to un american propaganda and union agitation as van nuys convincingly demonstrates this applied as much to immigrants in the urbanizing and industrializing west as it did to those occupying the ethnic enclaves of cities in the east in americanizing the west he tells how hundreds of bureaucrats educators employers and reformers participated in this movement by developing adult immigrant education programs and how these attempts contributed more toward bureaucratizing the west than it did to turning immigrants into productive citizens he deftly ties this history to broader national developments and shows how westerners brought distinctive approaches to americanization to accommodate and preserve their own sense of history and identity van nuys shows that although racism and social control agendas permeated americanization efforts in the west americanizers sustained their faith in education as a powerful force in transforming immigrants into productive citizens he also shows how some westerners especially in california believed they faced a racial frontier unlike other parts of the country in light of the influx of hispanics and asians so that westerners became major players in the crafting of not only american identity but also immigration policies the mystique of the white pioneer past still maintains a powerful hold on ideas of american identity and we still deal with many of these issues through laws and propositions targeting immigrants and alien workers americanizing the west makes a clear case for regional distinctiveness in this citizenship program and puts current headlines in perspective by showing how it helped make the west what it is today

provides opposing articles from throughout the country s history on various aspects of immigration and the effects of immigrants on the united states

inner city arts in downtown los angeles exemplifies innovative community involvement combining the artistic and business communities and city government
