empower students to be the change join the teaching mathematics for social justice movement we live in an era in which students have through various media and their lived experiences a more visceral experience of social economic and environmental injustices however when people think of social justice mathematics is rarely the first thing that comes to mind through model lessons developed by over 30 diverse contributors this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in the world along with expert guidance from the lead authors the lessons in this book explain how to teach mathematics for self and community empowerment it walks teachers step by step through the process of using mathematics across all high school content domains as a tool to explore understand and respond to issues of social injustice including environmental injustice wealth inequality food insecurity and gender lgbtq and racial discrimination this book features content cross referenced by mathematical concept and social issues downloadable instructional materials for student use user friendly and logical interior design for daily use guidance for designing and implementing social justice lessons driven by your own students unique passions and challenges timelier than ever teaching mathematics through the lens of social justice will connect content to students daily lives fortify their mathematical understanding and expose them to issues that will make them responsive citizens and leaders in the future

this book examines the content and effects of the mother child education program an early childhood and adult education program implemented widely in turkey the book presents a multipurpose education model which draws on research indicating that support in early years can affect the development of the child and which can be used to disseminate early childhood education at a low cost to groups who are most in need following a brief preface the first section of the book examines the mother child education program including the theoretical rationale how the program is implemented and how it is disseminated the second section details the immediate effects of the program effects on initial school success and program implementation and dissemination the third section discusses findings of the study investigating the effects of the program the fourth section based on mothers self

reports notes changes seen in children in the mother child relationship in the mothers personality in the family and the father and overall opinions of the program four appendixes chart the program s immediate effects initial school success and school adaptation program implementation evaluation and a sample enrichment unit from the program contains 137 references sd

presents examples of typical public schools situations and practical advice for abiding by copyright laws while still allowing for patron use of materials

educators are becoming increasingly concerned with more areas of discrimination and inequality that affects students for example as more immigrant students enter schools understandings and skills for educating about language discrimination are needed similarly as educators become more aware of the negative consequences of homophobic behavior on students knowledge and approaches for dealing with homophobia in schools are called for open minds to equality deals with the expanding range of equity concerns membership in the largest association national association for multicultural educators is growing by leaps and bounds state level associations are being started in these subjects all across the country while focusing on discrimination based on race gender class and age the second edition also addresses bias based on religion mental and physical ability sexual orientation and language it provides educators an inclusive framework for thinking about diversity and responding practically to all these forms of difference in their classrooms activities in the book address both content and process the content broadens the readerso awareness of the causes of inequality particularly how differences are used to justify inequality it encourages questions and the exploration of many sources of information and various points of view the process is experiential participatory cooperative and democratic this book is extremely helpful for teachers facilitators staff development programs and curriculum specialists it is also appropriate for professionals in educational settings outside of schools such as camps scouts church groups and youth agencies all of which bought the first edition of this book a longwood professional book

educational materials developed by university of minnesota extension service educators as a guide to deal with personal property inheritance issues

for classroom assessment and test and measurement courses in education departments this exceptionally lucid and practical new assessment text provides a wealth of powerful concrete examples that help students to understand assessment concepts and to effectively use assessment to support learning the book offers unique

coverage of ways to use assessment to support student learning across the developmental span from kindergarten through high school the book also provides more coverage than any other classroom assessment text of how to adapt assessment to the needs of students with disabilities and students whose first language is not english

the goal of this book is to provide an insightful accesible and practical introduction to issues of copyright for a broad spectrum of individuals in the higher education community
