ethics in business is a major topic both in the social sciences and in business itself anthropologists long attendant to the intersection of ethics and practice are particularly well suited to offer vital insights on the subject this timely collection considers a range of ethical issues in business through the examination of anthropologically informed theory and case examples the meaning of ethical values practices and education are explored as well as practical ways of implementing them while the specific ethical challenges of industries such as advertising market research and design are considered contributions from anthropologists in business and academia promise a broad range of perspectives and add to the growing discussion on the ways anthropologists study work teach and engage in a variety of industry settings engagingly written ethics in the anthropology of business will be of interest to a wide variety of audiences including practicing anthropologists current and future business leaders and scholars and students from a range of social sciences

this handbook engages the reader in the major debates approaches methodologies and explanatory frames within political anthropology examining the shifting borders of a moving field of enquiry it illustrates disciplinary paradigm shifts the role of humans in political structures ethnographies of the political and global processes reflecting the variety of directions that surround political anthropology today this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world

these ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization the essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities they stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated these active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society

contemporary anthropology has changed drastically in the new millennium expanding beyond the anachronistic study of primitive societies to confront the burning social economic and political challenges of the day in the process anthropologists often come face to face with issues that require them to take a public position issues such as race and tolerance health and well being food security reconciliation and public justice global terror and militarism and digital media this comprehensive but accessible book is both an interesting read and an excellent overview of public anthropology in depth case studies offer an opportunity to evaluate the pros and cons of engaging with public issues while profiles of select anthropologists ensure the book is contemporary but rooted in the history of the discipline

an illuminating guide to publishing a scholarly journal written by a former editor in chief american anthropologist is the flagship journal of

the american anthropological association published quarterly reaching more than 12 000 readers with each issue and representing four distinct subfields the journal publishes articles that add to integrate synthesize and interpret anthropological knowledge commentaries and essays on issues of importance to the discipline and reviews of books films sound recordings and exhibits from 2012 to 2016 michael chibnik was editor in chief of american anthropologist in scholarship money and prose he writes a candid account of the complex and challenging work entailed in its production providing detailed ethnographic and historical descriptions of the operations of a major journal and behind the scenes anecdotes of his experiences chibnik makes transparent the work of an editor in chief he reveals how he assembled diverse materials assessed contradictory peer reviews of manuscripts submitted for publication and collaborated with authors to improve the legibility and clarity of their articles he also examines controversies that emerged from his columns on open access and biological anthropology and the inclusion of politically charged material in the journal scholarship money and prose sheds light on two aspects of successful editing that are common to academic journals whatever their subject matter the first task is to strike a balance among different theoretical perspectives and topical specialties this pressure is particularly salient in a field like anthropology in which scholars differ greatly in the extent to which they adopt a scientific or humanistic perspective second editors must attend carefully to the need to keep costs down and revenues up in an economic environment in which libraries are cutting subscriptions and publishers are considering the future sustainability of journals relevant to a wide range of disciplines scholarship money and prose serves as a window onto the past present and future of scholarly publishing

volume 1 a and b covers international organizations throughout the world comprising their aims activities and events

the genesis of israel and egypt examines the earliest phase of historical consciousness in the ancient near east looking in particular at the mysterious origins of egypt s civilization and its links with mesopotamia and the early hebrews the book takes a radically alternative view of the rise of high civilization in the near east and the forces which propelled it the author emmet sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary english explorer percy fawcett terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods these events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries starting with clues unearthed by history sleuth immanuel velikovsky and others emmet sweeney takes the investigation further while the near eastern civilizations are

generally considered to have taken shape around 3300 bc about 2 000 years before those of china and the new world ages in alignment demonstrates that they had no 2 000 year head start all the ancient civilizations arose simultaneously around 1300 bc in the wake of a terrible natural catastrophe recalled in legend as the flood or deluge sweeney points out that the presently accepted chronology of egypt is not based on science but on venerated literary tradition this chronology had already been established in its present form by the third century bc when jewish historians utilizing the history of egypt by the hellenistic author manetho sought to tie in egypt s history with that of the bible apparent gaps and weird repetitions resulted improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or pythagorean geometry point to the weaknesses of the traditional view taking a more rigorous approach and pointing to solid evidence emmet sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times volume 1 the genesis of israel and egypt looks at the archaeological evidence for the flood evidence now misinterpreted and ignored this volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early mesopotamians westward toward egypt where they helped to establish egyptian civilization this migration recalled in the biblical story of abraham provides the first link between egyptian and hebrew histories the next link comes a few generations later with imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh djoser s dream imhotep is shown to be the same person as joseph son of jacob
