treating ADHD add in children and adolescents solutions for parents and clinicians was written for parents clinicians and teachers to learn a deeper understanding of ADHD and implement specific clear and effective ways to successfully evaluate and treat ADHD problems at home and school readers will learn not only research based and traditional approaches for treating ADHD but also proven newer and alternative methods this book provides the tools for readers to feel more informed and competent in addressing the many challenges that children and adolescents with ADHD experience whether new or previously exposed to ADHD readers should find the information to be very useful and effective in transforming ADHD this book is comprehensive in addressing the complete range of challenges that ADHD presents to children teens and families including accurately diagnosing ADHD and identifying the frequent co existing conditions better understandings of the condition powerful parental behavioral management skills for home and school difficulties ways to improve family and peer challenges enhancing homework and learning problems obtaining appropriate school services and addressing classroom issues better partnerships with physicians for effective ADHD medication treatments and utilizing a number of additional and alternative approaches to decrease and treat ADHD the book has three main aims the first is to provide a deeper understanding of ADHD without accurate perspectives families may not address the difficulties and challenges appropriately and treatment approaches may not be as successful or can fail the second goal is to learn the fundamentals about managing and treating the many ADHD challenges at home and school the third is for readers to learn a number of additional and alternative approaches to help treat ADHD symptoms and challenges some of these proven approaches are newer while others have a history of effectiveness

this book was first projected in 2004 when author Hannah Fairbairn was teaching interpersonal skills at the Carroll Center for the Blind in Newton Massachusetts the experiences of her adult students and her own experience of sight lost convinced her that everyone losing vision needs access to good information about the process of adjustment to losing sight and practical ways to use

assertive speech when you can't believe your eyes is intended for anyone going through vision loss their friends and families it will inform readers how to get expert professional help face the trauma of loss and navigate the world using speech more than sight each of the twelve chapters in the book contain many short sections and bullet point lists intended to facilitate access to the right information it begins where you begin at the doctor's office or the hospital since vision loss takes many forms there are suggestions for questions you might ask to get a clear diagnosis and the best treatment part one also has a description of legal blindness and possible prevention advice about your job and tips for life at home part two is about believing in yourself as you deal with the loss the anger and the fear before you come up for air and consider training parts three and four describe using assertive speech and action in all kinds of settings as your independence and confidence increase part five gives detailed information about everything from dating and caring for babies to senior living volunteering and retaining your job it is hoped that by reading and trying out the suggestions the reader will recover full confidence become a positive assertive communicator and lead a satisfying life because vision loss happens mostly in older years the book is written with seniors particularly in mind professionals will also find it to be a useful resource for their patients

this review guide is designed to help students learn the information presented in fundamentals of criminal investigation for each chapter a list of key terms and multiple choice and true false questions is provided the tenth edition contains 1 786 questions a new category of fill in the blank questions has been added to the question options there are now 180 fill in the blank questions in addition to 1 421 multiple choice questions and 185 true or false questions it is recommended that students first carefully read the chapter noting essential points and information then reviewing the key terms and then returning to the text to clarify unfamiliar topics students may proceed to the questions when confident they understand the key terms most questions are restatements of information in the chapter some may require students to apply the chapter information to derive the correct answer students may test their understanding of the material by trying to answer the questions correct answers can be found in the back of the study guide for questions that are answered incorrectly return to the text and review the appropriate information through this process of review and self testing students can increase their understanding of the complexities of the criminal investigation process

the primary purpose of this book is to offer a broad based examination into the role of scientific inquiry in contemporary special education as with the first two editions which were published in 2001 and 2011 the goal is to provide a comprehensive overview of the philosophical ethical methodological and analytical fundamentals of social science and educational research aspects of special education research that distinguish it from scientific inquiry in other fields of education and human services are specified foremost among these distinctions are the research beneficiaries children with disabilities their parents the special educators availability of federal funds for research and demonstration projects that seek to improve educational outcomes and the historical philosophical and legislative bases for the profession of special education this new edition represents a revision of more than 30 percent with over 250 new references each chapter is thoroughly updated with new developments in research topics designs and methods that have emerged over the past decade in the field of special education this unique book is an excellent resource guide for graduate level students practitioners teachers in the field of special education disability studies early intervention school psychology and child and family services

accounting information and tips you can take to the bank you may not know the first thing about debits credits and cash ratios now but when you re done with this book you ll be able to juggle profits and losses with your eyes closed and read any balance sheet like it s a good novel accounting demystified second edition is a curriculum based self teaching guide that makes learning accounting easier than 1 2 3 with graphs plain english explanations and real life examples it starts with the fundamentals such as basic financial terms balance sheets and cash flow statements and eases you into the more complicated stuff like adjusting entries double entry bookkeeping profit ratios and liquidity completely updated and revised to cover finance terms theories and best practices accounting demystified teaches you the ins and outs of accounting in no time at all this fast and easy guide features a complete overview of financial statements gaap rules transactions cost budgets and tax accounting proven accounting insights tips strategies and techniques chapter ending practice exercises quizzes and final exam to reinforce your knowledge and chart progress tons of examples to show how accounting works in the real world simple enough for a beginner but challenging enough for a more advanced student accounting demystified is your shortcut to mastery of this otherwise complex subject

adhd affects over six million children in the u s and despite its prevalence many clinicians do not accurately diagnose adhd and do not screen for and identify the numerous conditions that can coexist and even worsen true adhd or cause adhd like presentations when it does not exist to help clinicians this book offers three components part 1 presents the adhdology evaluation model which provides the ten steps to comprehensively evaluate adhd part 2 presents numerous medical sleep psychological trauma neurodevelopmental sensory processing and fetal substance exposure conditions these chapters describe the conditions in detail how they coexist with or appear similar to adhd how to distinguish them from true adhd and how mental health clinicians and specialists can further evaluate and treat these disorders part 3 is composed of the comprehensive diagnostic adhd screening system cclass a unique approach to improve the accuracy of evaluating adhd by utilizing checklists to help identify the risk factors associated with adhd the many possible conditions presented in part 2 that may exist so these can be further considered and evaluated by specialists and little known and not typically considered conditions that can cause adhd like presentations while written mainly for clinicians parents educators and interested others will find the text helpful to better understand these complex topics as well as assist clinicians with the adhd diagnostic process
