wide coverage of soils and perennial cropping systems in the tropics  
synthesis of decades of research  
challenges assumptions on the benefits of plantations for soil

fertility it is generally assumed that soil fertility decline is widespread in the tropics and that this is largely associated with annual cropping and subsistence farming in contrast perennial plant cover as in plantation agriculture provides better protection for the soil this book reviews these concepts focusing on soil chemical changes under different land use systems in the tropics these include perennial crops annual crops and forest plantations two case studies on sisal plantations in tanzania and sugar cane in papua new guinea are presented for detailed analysis the author demonstrates that soil fertility decline is also a problem on plantations

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life
