this book offers an original interpretation of the origin and early reception of the most fundamental claim of christianity jesus resurrection richard miller contends that the earliest

christians would not have considered the new testament accounts of jesus resurrection to be literal or historical but instead would have recognized this narrative as an instance of the trope of divine translation common within the hellenistic and roman mythic traditions given this framework miller argues early christians would have understood the resurrection story as fictitious rather than historical in nature by drawing connections between the gospels and ancient greek and roman literature miller makes the case that the narratives of the resurrection and ascension of christ applied extensive and unmistakable structural and symbolic language common to mediterranean translation fables stock story patterns derived particularly from the archetypal myths of heracles and romulus in the course of his argument the author applies a critical lens to the referential and mimetic nature of the gospel stories and suggests that adapting the translation fable trope to accounts of jesus resurrection functioned to exalt him to the level of the heroes demigods and emperors of the hellenistic and roman world miller's contentions have significant implications for new testament scholarship and will provoke discussion among scholars of early christianity and classical studies

roman tragedies were written for over three hundred years but only fragments remain of plays that predate the works of seneca in the mid first century c e making it difficult to define the role of tragedy in ancient roman culture nevertheless in this pioneering book mario erasmo draws on all the available evidence to trace the evolution of roman tragedy

from the earliest tragedians to the dramatist seneca and to explore the role played by roman culture in shaping the perception of theatricality on and off the stage performing a philological analysis of texts informed by semiotic theory and audience reception erasmo pursues two main questions in this study how does roman tragedy become metatragedy and how did off stage theatricality come to compete with the theatre working chronologically he looks at how plays began to incorporate a rhetoricized reality on stage thus pointing to their own theatricality and he shows how this theatricality in turn came to permeate society so that real events such as the assassination of julius caesar took on theatrical overtones while pompey s theatre opening and the lavish spectacles of the emperor nero deliberately blurred the lines between reality and theatre tragedy eventually declined as a force in roman culture erasmo suggests because off stage reality became so theatrical that on stage tragedy could no longer compete

virgil s aeneid 5 has long been among the more neglected sections of the poet s epic of augustan rome book 5 opens the second movement of the poem the middle section of the aeneid that sees the trojans poised between the old world of phrygia and the new destiny in italy the present volume fills a significant gap in virgilian studies by offering the first full scale commentary in any language on this key book in the explication of the poet s grand consideration of the meaning of trojan versus roman identity a new critical text based on first hand examination of the manuscripts is accompanied by a prose translation and detailed commentary the notes provide in depth analysis of literary historical and lexical matters the introduction situates book 5 both in the context of the epic and the larger tradition of heroic poetry
