in post industrial societies more and more people earn an income in creative knowledge work a highly flexible labour market segment that demands a geographically mobile workforce creative knowledge work is based on an understanding of language culture and symbolic meanings this can best be obtained through local and national embeddedness yet this necessity for embeddedness stands in contrast to the demand in geographical mobility how is this contradiction solved by individuals what new forms of place attachment does this bring about this book introduces a showcase of 25 multilocal creative knowledge workers who live in different countries at the same time it investigates how continuous mobility becomes part of their lifeworld and how it changes their feelings of belonging and practices of place attachment applying an innovative methodological mix of social phenomenology hermeneutics and mental mapping this book takes a detailed look at biographies and the role of places in mobile lifeworlds plug play places brings forth the idea that places have to be understood as individual items which are configured and then plugged into the system of the own lifeworld they can be played without great effort once an individual needs to make use of them this new type of place attachment is a form of subjective standardization of place which complements the well known models of objective standardization of places plug play places is relevant for scientists who deal with mobility and its impact on individual lifeworlds with transnational multilocality and with flexibilized labour markets furthermore the book provides a detailed qualitative perspective which can enrich the explanations of quantitative research in the same field it is an interesting reading also for practitioners engaged in urban planning housing and real estate development robert nadler holds a doctoral degree in urban and local european studies from the university of milan bicocca he is a researcher at the leibniz institute for regional geography and published on creative industries multilocality and labour mobility

this major collection explores the contested nature of love and eroticism examining the ways in which erotic bodily pleasures have become central to contemporary consumer culture it investigates the spatial dimension of erotic life through considerations of bohemian love the gay city and the ways in which the urban landscape and everyday life have become sexualized issues which have become central to the emergence of queer as a new form of gender politics and more general questions of sexual citizenship drawing on the work of feminists sociologists and cultural theorists this book contains a wide ranging and accessible set of contributions to contemporary debates on sexuality love and eroticism love eroticism is simultaneously published as volume 15 issue 3 4 of theory culture society

this book explores the transformations of the infancy gospel of thomas in the middle ages it also connects the different representations of children childhood everyday and family life in the distinct textual versions to the ancient and medieval settings in which they appear the text survived and influenced ideas and mentalities that shaped medieval minds in the east and the west but also enhanced anti jewish sentiments

law is too often perceived solely as state based rules and institutions that provide a rational alternative to religious rites and ancestral customs the spirit of hindu law uses the hindu legal tradition as a heuristic tool to question this view and reveal the close linkage between law and religion emphasizing the household the family and everyday relationships as additional social locations of law it contends that law itself can be understood as a theology of ordinary life an introduction to traditional hindu law and jurisprudence this book is structured around key legal concepts such as the sources of law and authority the laws of persons and things procedure punishment and legal practice it combines investigation of key themes from sanskrit legal texts with discussion of hindu theology and ethics as well as thorough examination of broader comparative issues in law and religion

food and everyday life provides a qualitative interpretive and interdisciplinary examination of food and food practices and their meanings in the modern world edited by thomas m conroy the book offers a number of complementary approaches and topics around the parameters of the ordinary everyday perspective on food these studies highlight aspects of food production distribution and consumption as well as the discourse on food chapters discuss examples ranging from the cultural meanings of food as represented on television to the practices of food budgeting to the cultural politics of such practices as sustainable brewing and developing new forms of urban agriculture a number of the studies focus on the relationships between food eating practices and the body each chapter examines a particular and in many instances highly unique food practice and each includes some key details of that practice taken together the chapters show us how the everyday practices of food are both familiar and yet at the same time ripe for further discovery

on the occasion of jane jacobs 100 anniversary the chair of spatial planning and strategy of the delft university of technology together with the otb research institute for the built environment and the rotterdam erasmus university college organised a two day conference on jane jacob s legacy at tu delft on 24 25 may 2016 this event was complemented one year later by a jane jacobs year closing event we wished to celebrate the life and accomplishments of one of the most important urban thinkers of our time someone who has influenced generations of designers and planners and others concerned with the built environment the great jane jacobs this volume contains a number of papers presented at the celebratory conference held at tu delft in may 2016 with six tracks coordinated by guest scholars track 1 jane jacobs ethics and the just city track 2 jane jacobs and street spaces streets as public places track 3 jane jacobs and the dynamics of neighbourhoods track 4 jane jacobs and the reshaping old urban fabrics in chinese cities track 5 jane jacobs and organised complexity track 6 jane jacobs and safety in public space

critical theory has left an indelible mark on postwar social thought but what are the relations between

critical theory and the cultural turn how did critical theory inform later french critical theorists such as lefebvre barthes and baudrillard this accomplished and accessible book demonstrates the origins of critical theory in the marxian analysis of the capitalist mode of production and freudian psychoanalysis clearly explains the main achievements of critical theory elucidates how critical theory defines culture as a system that constrains and alienates the individual explores the potential for social change and personal emancipation in the critical heritage the author locates the importance of myth and reason the significance of sexuality the place of work the difference between art and entertainment the nature of everyday life and the relationship between knowledge and action the result is a lucid and informative text which will appeal to all students interested in the critical traditions of social thought

snobbery is a more serious matter than some may think the arguments around brexit and trump show that accusations of snobbery have become part of political discourse and public sentiment building social divisions and reflecting deeper issues of class inequality social class is not simply about wealth health and life chances but also about everyday social experience such as being included or excluded as social inequality grows snobbery is becoming ever more pertinent this book takes a fresh and engaging look at this key issue drawing on literature popular culture and autobiography as well as sociology and history david morgan explores the complex history and different varieties of snobbery as well as its all pervasive character to reveal why despite claims about the openness of our society it is still a matter of public concern

this book studies china s urbanization with the theory of production of space the authors redefine the production of space and build a new theoretical framework for understanding the evolving relations between urbanization and spatial production since the reform and opening up especially in the last twenty years the logic of spatial production has dominated china s urbanization the authors choose the most representative cases such as the yangtze river delta urban agglomeration jiangsu province national high tech industrial development zone new urban district state level new area university town and some villages to conduct a series of empirical studies on production of space at the macro meso and micro scales through an in depth analysis of the interaction between social spaces and urbanization influenced by power capital and class the book reveals that the essence of china s urbanization is dominated by the logic of spatial production the authors finally propose that an important shift toward humanism should be made in the future development of china s new type urbanization emphasizing more even and adequate development between different regions and between urban and rural areas which also provides new ideas for the theory and practice of urbanization worldwide this book can be read and referenced by researchers in the fields of urban and regional studies geography sociology urban and rural planning management etc it can also be used as a teaching reference book for teachers researchers and students of scientific research institutions in related fields
