this book examines the origins of the us navy s 2007 maritime strategy the formation of the us government s pivot to asia strategy and the most recent revisions to this strategy that

focus more specifically on china besides examining the details of this strategy formulation the book explores the internal and external repercussions on the us navy of the pivot to asia it discusses the fat leonard scandal which involved bribery and corruption in contracts for the maintenance of the us fleets in the region and considers the sharp decrease in training and readiness of the pacific fleet to support the pivot which in turn led to serious maritime collisions it also assesses the impact of the pivot on other countries in the region engaging in the debate as to whether the pivot was necessary in order to convince the countries of the region that the united states had not lost its staying power or whether the pivot managed to make tensions in the asia pacific worse even while allowing the strategic situation in the middle east and europe to worsen as a result of neglect

in 1947 4 000 motorcycle hobbyists converged on hollister california as images of dissolute bikers graced the pages of newspapers and magazines the three day gathering sparked the growth of a new subculture while also touching off national alarm in the years that followed the stereotypical leather clad biker emerged in the american consciousness as a menace to law abiding motorists and small towns yet a few short decades later the motorcyclist once menacing became mainstream to understand this shift randy d mcbee narrates the evolution of motorcycle culture since world war ii along the way he examines the rebelliousness of early riders of the 1940s and 1950s riders increasing connection to violence and the counterculture in the 1960s and 1970s the rich urban bikers of the 1990s and 2000s and the factors that gave rise to a motorcycle rights movement mcbee s fascinating narrative of motorcycling s past and present reveals the biker as a crucial character in twentieth century american life

at the creation by herbert wagner brings to life the human side of harley davidson s quest to motorize the bicycle and then to promote it as a powerful fast reliable and thrilling means of personal transportation this book examines the origins of two wheeled transportation from a time when combining the gasoline engine with the bicycle was the province of dreamers and con men this is the definitive account of the beginnings of the only american motorcycle brand to ultimately succeed and survive backed by a decade of research at the creation documents for the first time the early years of the harley davidson motorcycle in its birthplace of milwaukee wisconsin an area that was an early center of motorcycle manufacturing previous books on harley davidson have failed to adequately cover this critical period which has been described as the era of mystery by harley davidson company historian martin jack rosenblum at the creation takes on several long standing puzzles and myths and then through the use of period documents and original photographs recreates the actual events of harley s first years as they most plausibly occurred
