international frontiers and boundaries separate land rivers and lakes subject to different sovereignties frontiers are zones of varying widths and they were common many centuries ago by 1900 frontiers had almost disappeared and had been replaced by boundaries that are lines the divisive nature of frontiers and boundaries has formed the focus of inter disciplinary studies by economists geographers historians lawyers and political scientists scholars from these disciplines have produced a rich literature dealing with frontiers and boundaries the authors surveyed this extensive literature and the introduction reveals the themes which have attracted most attention following the introduction the book falls into three sections the first section deals systematically with frontiers boundary evolution and boundary disputes the second section considers aspects of international law related to boundaries it includes chapters dealing with international law and territorial boundaries maps as evidence of international boundaries and river boundaries and international law the third section consists of seven regional chapters that examine the evolution of boundaries in the americas the middle east africa asia europe islands off southeast asia and antarctica

africa has experienced a number of territorial disputes over land and maritime boundaries due in part to its colonial and post colonial history this book explores the legal political and historical nature of disputes over territory in the african continent and critiques the content and application of contemporary international law to the resolution of african territorial and border disputes drawing on central concepts of public international law such as sovereignty and jurisdiction and socio political concepts such as colonialism ethnicity nationality and self determination this book interrogates the intimate connection that peoples and nations have to territory and the severe disputes these may lead to gbenga oduntan identifies the major principles of law at play in relation to territorial and boundary disputes and argues that the predominant use of foreign based adjudicatory mechanisms in attempting to deal with african boundary disputes alienates those institutions and mechanisms from african people and can contribute to the recurrence of conflicts and disputes in and among african territories he suggests that the understanding and application of multidisciplinary dispute resolution mechanisms and strategies can allow for a more holistic and effective treatment of boundary disputes as an in depth study into the legal socio political and anthropological mechanisms involved in the understanding of territorial boundaries and a unique synthesis of an african jurisprudence of international boundaries law this book will be of great use and interest to students researchers and practitioners in african and public international law international relations and decision makers in need of better understanding the settlement of disputes over territorial boundaries in both africa and the wider world
