Turner

in the early days of television many of its actors writers producers and directors came from radio this crossover endowed the american radio archives with a treasure trove of television documents the collected scripts span more than 40 years of american television history from live broadcasts of the 1940s to the late 1980s they also cover the entire spectrum of television entertainment programming including comedies soap operas dramas westerns and crime series the archives cover nearly 1 200 programs represented by more than 6 000 individual scripts includes an index of personal names program and episode titles and production companies as well as a glossary of industry terms

essays in film and the humanities

stage lighting the fundamentals is written specifically for introductory stage lighting courses the book begins with an examination of the nature of light perception and color then leads into a conversation of stage lighting equipment and technicians lamps luminaries controls dimming and electricity form the basis of these chapters the book also provides a detailed explanation and overview of the lighting design process for the theatre and several other traditional forms of entertainment finally the book explores a variety of additional areas where lighting designers can find related future employment such as concert and corporate lighting themed design architectural and landscape lighting and computer animation new for this edition enlarged full color illustrations photographs light plots and examples of lighting design updated information on led lighting and equipment expanded discussion of the practical use of color as a designer expanded discussion of psychological perceptual effects of color new discussion of color mixing through light sources that make use of additive mixing expanded discussion of industry professions expanded discussion and illustrations relating to photometrics expanded discussion and examples of control protocols and new equipment and updated designer profiles along with the addition of still more designer profiles

the book's organization follows a layered approach that builds on basic principles light as a medium part 1 tools of a lighting designer part 2 design fundamentals part 3 and lighting applications part 4 this presents students with a practical and logical sequence when learning basic concepts the full spectrum of the lighting design process is presented in detail giving students an example of how one might develop a lighting design from script analysis through concept and plot development and all the way to an opening this detailed process with a step by step design approach gives students a plan to work from which they can later modify as they mature and gain confidence as designers the text contains a more comprehensive discussion of basic technology light as a physical phenomena and methodology of designs than is found in most introductory texts bridging the gap between introductory and advanced lighting courses the text will appeal to theatrical designers who want to venture into areas of lighting like architectural or virtual lighting design while at the same time gaining a solid grounding in the fundamentals of lighting design lighting design will also benefit illuminating engineers who want to move away from mere computational approaches in lighting and on to explore techniques along the design approaches of theatrical lighting design the final 9 chapters cover many specialty areas of lighting design highlighting the unique and shared qualities that exist between the different aspects of these elements discussions involve traditional entertainment areas like theatre as well as lesser known facets of the industry including film video landscape lighting retail museum lighting virtual lighting concert spectacle performances and architectural lighting models of design tasks demonstrate the actual use and development of plots sections schedules photometrics tables and cut sheets rather than simply talking about what they are this hands on approach provides students with a firm understanding of how to actually use these tools and processes

a stage adaptation of the drama an enemy of the people by henrik ibsen in which a norwegian doctor is shunned by the townspeople after he discovers their famous spring water is really poisoned

this annual guide on global film making offers a unique survey of trends achievements and personalities during the past year as usual the guide selects five directors of the year for appraisal danny boyle takeshi kitano soren kragh jacobson david mamet and spike lees this edition has updated sections on film festivals music and archives

what happened in american drama in the years between the depression and the conclusion of world war ii how did war make its impact on the theatre more important how was drama used during the war years to shape american beliefs and actions albert wertheim s staging the war brings to light the important role played by the drama during what might arguably be called the most important decade in american history as much of the country experienced the dislocation of military service and work in war industries the dramatic arts registered the enormous changes to the boundaries of social classes ethnicities and gender roles in research ranging over more than 150 plays wertheim discusses some of the well known works of the period including the time of your life our town watch on the rhine and all my sons but he also uncovers little known and largely unpublished plays for the stage and radio by such future luminaries as arthur miller and frank loesser including those written at the behest of the u s government or as u s o musicals the american son of refugees who escaped the third reich in 1937 wertheim gives life to this vital period in american history

discusses the way films have increased public awareness of the holocaust the great dictator cabaret julia the pawnbroker as well as the nbc mini series holocaust are discussed at length also discusses the diary of anne frank
