there is no question more fundamental to human existence than that posed by the nature versus nurture debate for much of the past century it was widely believed that there was no essential human nature and that people could be

educated or socialized to thrive in almost any imaginable culture today that orthodoxy is being directly and forcefully challenged by a new science of the mind evolutionary psychology like the theory of evolution itself the implications of evolutionary psychology are provocative and unsettling rather than viewing the human mind as a mysterious black box or a blank slate evolutionary psychologists see it as a physical organ that has evolved to process certain types of information in certain ways that enables us to thrive only in certain types of cultures in on our minds eric m gander examines all sides of the public debate between evolutionary psychologists and their critics paying particularly close attention to the popular science writings of steven pinker edward o wilson richard dawkins and stephen jay gould gander traces the history of the controversy succinctly summarizes the claims and theories of the evolutionary psychologists dissects the various arguments deployed by each side and considers in detail the far reaching ramifications social cultural and political of this debate gander s lucid and highly readable account concludes that evolutionary psychology now holds the potential to answer our oldest and most profound moral and philosophical questions fundamentally changing our self perception as a species boguslaw pawlowski

from naomi klein author of the 1 international bestsellers the shock doctrine and no logo a must read on how the climate crisis needs to spur transformational political change we seem to have given up on any serious effort to prevent catastrophic climate change despite mounting scientific evidence denialism is surging in many wealthy countries and extreme fossil fuel extraction gathers pace exposing the work of ideologues on the right who know the challenge this poses to the free market all too well naomi klein also challenges the failing strategies of environmental groups this changes everything argues that the deep changes required should not be viewed as punishments to fear but as a kind of gift it s time to stop running from the full implications of the crisis and begin to embrace them naomi klein is an award
