in a thoughtful and thought provoking contribution to the study of animals and the holocaust karen davis makes the case that significant parallels can and must be drawn between the holocaust and the institutionalized abuse of billions of

animals in factory farms carefully setting forth the conditions that must be met when one instance of oppression is used metaphorically to illuminate another davis demonstrates the value of such comparisons in exploring the invisibility of the oppressed historical and hidden suffering the idea that some groups were made to serve others through suffering and sacrificial death and other concepts that reveal powerful connections between animal and human experience as well as human traditions and tendencies of which we all should be aware

zora neale hurston is a controversial figure equally praised and criticized for her representation of african americans while some critics emphasize her ebullience and celebration of black culture others call her fiction stereotypical and essentialist observing the workings of the recurrent humor in her works helps explode this critical binary opposition specifically the carnivalesque and the heteroglossia often subvert essentialist notions of black identity jonah s gourd vine s protagonist the preacher womanizer john pearson can be seen as an african rather than an african american trickster figure i e as a mobile character whose liminality helps him fight essentialist definitions imposed on him by both the white establishment and his own community janie s romantic search for self fulfillment in their eyes were watching god is undermined by the humor and the carnival which emphasize her shifting and multiply defined identity finally the african americanized story of moose and the hebrews shows the conflicts involved in their search for a unified national and cultural identity in these three novels hurston appears as a subversive presence whose manipulation of humor underscores a complex political vision

richard delgado is university professor at seattle university law school

in the handmaid s tale and philosophy philosophers give their insights into the blockbuster best selling novel and record breaking tv series the handmaid s tale the story involves a future breakaway state in new england beset by environmental disaster and a plummeting birth rate in which the few remaining fertile women are conscripted to have sex and bear children to the most powerful

men all justified and rationalized by religious fundamentalism among the questions raised by this riveting and harrowing story the handmaid s tale displays the connection between sex and power what light does this story shed on sex and power in our own society the divinity of the feminine is associated with the female capacity to give birth is this association inherently exploitative in the story the revolution rapidly rebranded people by changing their names and placing them into functional groups with specific titles how important is change in language to the suppression of individual freedom the handmaid s tale sees everything through the eyes of one character how is it possible to construct a self and an identity at odds with the definition which the culture attempts to impose in oppressive societies even the most oppressed do show some freedom of choice what is the limit of autonomy in a repressive society ruled by a fanatical ideology our present ethics of sex relies heavily on the notion of consent but in the world of the handmaid s tale there is little scope for consent how is the power of consent constricted by the broader social conditions the feminist idea of care ethics can be used to critique various gender relationships how does care ethics evaluate our own society and the society depicted in the handmaid s tale the society portrayed in the story is marked by fierce religiosity yet the christian god presumably disapproves of its brutal exploitation and oppression what is the relation between a loving deity and the literal interpretation of scriptural passages among many dystopian stories what makes the handmaid s tale particularly memorable and what purpose is served by the contemplation of imaginary dystopias suicide is common in the handmaid s tale and contemplating the possibility of suicide is even more common can life be worth living if the political and religious structure is thoroughly malign beneath the theocratic preaching there is the practical suggestion that everything is being arranged for the good of society and therefore of everyone who gets to decide and enforce what is in society s best interests

this study deals with a particular kind of short story in south african english literature a kind of story variously called the fireside tale tall tale skaz narrative or the term used here the oral style story most famously exemplified in the oom schalk lourens narratives of herman charles bosman the oral style story has its roots in the hunting tale and camp fire yarn of the nineteenth century and has

dozens of exponents in south african literature most of them long forgotten here this neglect has been addressed a w drayson s tales at the outspan 1862 provides a point of departure and is followed by discussions of works by william charles scully percy fitzpatrick ernest glanville perceval gibbon francis carey slater pauline smith and aegidius jean blignaut all of whom used the oral style story genre in the work of herman charles bosman however the south african oral style story comes into its own in his oom schalk lourens figure is invested all of the complexity and double voicedness that was latent and largely dormant in the earlier works bosman demonstrates his sophistication particularly in his metafictional use of the oral style story the study concludes with a discussion of the use of oral forms in the work of more recent black writers among them bessie head mtutuzeli matshoba and njabulo ndebele

the moorlands of gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century europe from an area of open moors they were transformed in one generation into the largest man made forest in europe body and tradition in nineteenth century france explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of felix arnaudin 1844 1921 the study places the songs stories and everyday speech that arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans it argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population william g pooley tells the story of the folklorist arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship the volume focuses on the lives of a handful of the most talented storytellers and singers arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural europe
