this book goes beyond the science versus religion dispute to ask why evolution is so often rejected as a legitimate scientific fact focusing on a wide range of cognitive socio cultural and motivational factors that make concepts such as evolution difficult to grasp

this book brings together the key scholars in the international practice debate to demonstrate its strengths as an innovative research perspective the contributions show the benefit of practice theories in the study of phenomena in international security

international political economy and international organisation by directing attention to concrete and observable everyday practices that shape international outcomes the chapters exemplify the cross overs and relations to other theoretical approaches and thereby establish practice theories as a distinct perspective each chapter investigates a key concept that plays an important role in international relations theory such as power norms knowledge change or cognition taken together the authors make a strong case that practice theories allow to ask new questions direct attention to uncommon empirical material and reach different conclusions about international relations phenomena the book is a must read for anyone interested in recent international relations theory and the actual practices of doing global politics

this book demystifies language learning theories and offers clear explanations interactive exercises and summary tables to help students connect theory with practice it explores key frameworks such as behaviorism innatism and constructivism as well as modern perspectives like chaos complexity theory through an engaging structure each chapter unpacks fundamental theories debates and real world applications and highlights critical topics like learner diversity automaticity and sociocultural influences the book also examines the impact of language learning theories on teaching strategies classroom materials and curriculum design practical examples in class activities and digital resources including youtube references enhance understanding and encourage active learning designed for undergraduate graduate and even postgraduate students this essential guide balances academic rigour with accessibility making it a valuable resource for those studying second language acquisition applied linguistics and language teaching whether new to the field or a specialist readers will gain the tools to critically engage with research and classroom methodologies

based on new research and years of practical experience this guide presents the basic knowledge necessary to become a professional indexer synthesizing the thinking and experience of indexers and abstractors over the years the book introduces readers to such fundamentals as the nature of information the organization of information vocabulary control types of indexes and abstracts evaluation of indexing and the use of computers a new chapter on indexing and the internet has been added as has a chapter that lists resources for indexers and abstractors the work concludes with a discussion of the education training and job opportunities of the profession as well as a look to the future with its simple but thorough approach this book provides readers with a broad overview of the professions processes and art of indexing and abstracting

written with precision and clarity this is a compelling analysis of the central problems of sociological theory today and of the means to resolve them argues that we should build on ideas from the 50s and 60s and not dismiss them

this all in one study guide delivers all the review and practice you need to master biology fundamentals whether you re starting from scratch or refreshing your biology skills this accessible guide will help you develop a better understanding of biology offering concise

coverage of all biology basics the book is packed with clear easy to grasp review material hundreds of practice exercises increase your grasp of biology concepts and help you retain what you have learned the book features a brand new chapter pulling it all together to help you consolidate what you ve learned throughout the book new research moment boxes use simple lab or field based experiments to help you apply biology lessons to the real world concise review material that clearly explains biology fundamentals hundreds of practice exercises to build your problem solving confidence

succeed in biology with practice practice practice practice makes perfect only if you are practicing correctly through clear and concise descriptions and supporting images the text in this book will help you uncover what can seem like a complex and complicated subject matter chock full of technical jargon as we move from an investigation of the microscopic to macroscopic world you will develop study habits to help you master the material specifically the identification of greek and latin roots in vocabulary terms and the application of new concepts to recurring and overarching themes of biology this approach will allow you to recognize how biology topics are interconnected which will deepen your overall understanding after each chapter lesson numerous exercises follow to help you check your understanding and better relate to the subject dozens of exercises enable you to practice what you ve learned and a complete answer key is included for you to check your work working through the lessons in this book you will find it easier than ever to grasp biology concepts and with a variety of assessment types provided for practice you will gain confidence using your growing biology skills in your classwork and on exams actively engaging with biology topics over time will enable you to start to see biology all around you as the study of life biology is nearly everywhere you look and sometimes even shows up in very unexpected places

this text explores the current roles of advanced nursing practice as well as the evolving roles of acnp blended cns np and nurse case manager it describes and differentiates these various roles with a focus on education certification and direct practice issues
