what is the significance of food in our everyday lives food geographies addresses this broad question by examining the social political and ecological connections that food

weaves between people and places across the world and revealing the centrality of food in the human experience this interdisciplinary and systemic perspective provides readers with key concepts analytical tools and critical skills to better understand and address the many issues facing the contemporary food system including food insecurity environmental degradation climate change labor exploitation social inequality power imbalance in decision making and threats to health and well being it takes readers to places including modern plantations in peru collective farms in tanzania food halls in france home kitchens in japan community gardens in brazil pubs in england and animal feeding operations in america by raising important questions about the current system readers will explore ways to enact meaningful change to build better future food geographies by producing consuming and engaging with food differently

why does hunger persist in a world of plenty ending hunger worldwide challenges the naive notion that everyone wants hunger to end arguing that the powerful care but not enough to make a difference george kent argues that the central focus in overcoming hunger should be on building stronger communities it is these communities which can provide mutual support to ensure that people don't go hungry kent demonstrates that there is not a shortage of food but of what amartya sen terms opportunities and that developing tight knit communities will lead to more opportunities for the hungry and undernourished ending hunger worldwide challenges dominant market led solutions and will be essential reading for activists ngo workers and development students looking for a fresh perspective

following the collapse of the soviet union in the early 1990s cuba found itself solely responsible for feeding a nation that had grown dependent on imports and trade subsidies with fuel fertilizers and pesticides disappearing overnight citizens began growing their own organic produce anywhere they could find space on rooftops balconies vacant lots and even school playgrounds by 1998 there were more than 8 000 urban farms in havana producing nearly half of the country's vegetables what began as a grassroots initiative had in less than a decade grown into the largest sustainable agriculture initiative ever undertaken making cuba the world leader in urban farming featuring a wealth of rarely seen material and intimate portraits of the environment farming cuba details the innovative design strategies and explores the social political and environmental factors that helped shape this pioneering urban farming program

cuba in a global context examines the unlikely prominence of the island nation's geopolitical role the contributors to this volume explore the myriad ways in which cuba

has not only maintained but often increased its reach and influence in latin america europe africa and asia from the beginning the castro regime established a foreign policy that would legitimize the revolutionary government if not in the eyes of the united states at least in the eyes of other global actors the essays in this volume shed new light on cuban diplomacy with communist china as well as with western governments such as great britain and canada in recent years cubans have improved their lives in the face of the ongoing u s embargo the promotion of increased economic and political cooperation between cuba and venezuela served as a catalyst for the petrocaribe group links established with countries in the caribbean and central america have increased tourism medical diplomacy and food sovereignty across the region cuban transnationalism has also succeeded in creating people to people contacts involving those who have remained on the island and members of the cuban diaspora while the specifics of cuba s international relations are likely to change as new leaders take over the role of cubans working to assert their sovereignty has undoubtedly impacted every corner of the globe

en el presente libro se hace un amplio repaso sobre los rasgos ambientales y características espaciales de los ambientes educativos y su influencia en el comportamiento de los estudiantes al poner en el centro al alumno y al prestar atención tanto a los elementos relacionados con el aprendizaje de procesos cognoscitivos como de la socialización el texto analiza la importancia de aspectos tales como el diseño arquitectónico las fachadas de los edificios la iluminación el ruido el diseño del mobiliario la naturaleza y en aquellos aspectos sociales como el clima escolar y los manuales de convivencia factores que inciden en la formación de los estudiantes propuestas esenciales como el huerto escolar la evaluación posocupacional del diseño espacial de los espacios escolares junto con la introducción de las nuevas tecnologías en la enseñanza hacen de esta obra un referente bibliográfico indiscutible para arquitectos psicólogos ambientales y educadores para entender los procesos pedagógicos actuales y proyectar el futuro de los ambientes escolares

a concepção desta organização é resultado do encontro de docentes discentes e parceiros de pesquisa que vêm se dedicando a discutir o papel da cultura e do trabalho daqueles que atuam neste setor da economia capitalista tendo por base dados empíricos e análise de políticas culturais no brasil the concept of this book is the outcome of a series of meetings between teachers students and fellow researchers who have dedicated themselves to discussing the role of culture and the work of those who act within this sector of the capitalist economy based on empirical data and an analysis

of cultural policies in brazil

pushed by necessity but enabled by its existing social and educational policies cuba in the 1990s launched the most extensive program of urban sustainable agriculture in the world this study is to date the only book length investigation in either english or spanish of this important national experiment in transforming the environmental economic and social nature of today s dominant system of producing food al campbell university of utah as large scale industrial agriculture comes under increasing scrutiny because of its petroleum and petrochemical based input costs and environmentally objectionable consequences increasing attention has been focused on sustainable local and agro ecological techniques in food production cuba was forced by historical circumstances to be one of the pioneers in the massive application of these techniques after the demise of the soviet union in the early 1990s cuba was left without access to external support needed to carry on with industrial agriculture the economic crisis led the country to reconsider their former models of resource management cuba retooled its agricultural programs to focus on urban agriculture sustainable ecologically sound farming close to densely populated areas food now takes far less time to get to the people who are now better nourished because they have easier access to whole foods moreover urban farming has become a source of national pride cuba has one of the best urban agriculture programs in the world with a thousand fold increase in urban agricultural output since 1994 sinan koont has spent the last several years researching urban agriculture in cuba including field work at many sustainable farms on the island he tells the story of why and how cuba was able to turn to urban food production on a large scale with minimal use of chemicals petroleum and machinery and of the successes it achieved along with the continuing difficulties it still faces in reducing its need for food imports sinan koont is associate professor of economics at dickinson college a volume in the series contemporary cuba edited by john m kirk

the medina of chefchaouen represents an architectural heritage of great value and its building culture constitutes a repertoire of knowledge to be safeguarded as an expression of cultural diversity in the relationship between society and nature the volume presents the results of an in depth research on the knowledge system that constitutes the local building culture of the medina highlighting the characteristics of the construction systems the risks to which the traditional heritage is subject and its contribution to the development of a sustainable habitat the book addresses the theme of the built heritage of the medina with an interdisciplinary approach which includes architecture as part of a system that has to be studied along with the natural social and

cultural contexts

here experts assess the role of central banks in responding to the recent financial crisis and in preventing future crises the contributors focus on monetary policy the new area of macroprudential policy and issues of exchange rates capital flows and banking and financial markets

this book assesses the political economic and geopolitical dynamics that china's presence has initiated throughout latin america and the caribbean between 2008 and 2020 written by experts across three continents contributions to this edited volume explore the bilateral relations that china has developed with almost all latin american and caribbean countries charting both the benefits they have brought and the problems that these relations have created for local actors the book analyses the emergence of new forms of dependence considers issues such as the existence of a deindustrialization phenomenon throughout latin america and ultimately questions whether china and the united states are engaged in a zero sum game in the region it also investigates challenges that the densification of the web of china's relations and exchanges with latin america and the caribbean countries pose not only to the united states and european countries as traditional partners of these states but also to latin american regionalism including an extensive set of case studies and local regional and global level analysis china latin america and the caribbean provides an empirically rich resource for students and scholars of chinese foreign and economic policy latin america the caribbean and wider geopolitics
