performance and performativity are important terms for a theorization of gender and race ethnicity as constitutive of identity this collection reflects the ubiquity diversity and historical locatedness of ethnicity and gender by presenting contributions by an array of international scholars who focus on the representation of these crucial categories of identity across various media including literature film documentary and music video performance the first section political agency stresses instances where the performance of ethnicity gender ultimately aims at a liberating effect leading to more autonomy the second section diasporic belonging explores the different kinds of negotiations of ethnic performances in multi ethnic contexts the third part performances of ethnicity and gender scrutinizes instances of the combined performance of ethnicity and gender in novels films and musical performances the last section cross ethnic traffic contains a number of contributions that are concerned with attempts at crossing over from one ethnicity into another by way of performance

master s thesis from the year 2010 in the subject politics region southeastern europe grade 1 5 university of bologna and university of sarajevo language english abstract reproductive and labour rights of women are of interest because they are mutually linked and reinforcing firstly it is through reproduction policies and rhetoric that women are limited to their role in preserving the continuance of the nation in turn this serves the benefit of the demographic policies of ethnocracies it is important to note that it is through these policies that hierarchical and patriarchal structures are reinforced as a logical consequence this is supposed to have an impact on the enjoyment of women s labour rights because following this argumentation it is not in the interest of ethnocracies to involve women equally to men into paid labour but rather to reinforce their primary task of reproduction by discriminating them through certain policies related to the labour market this is why the aim of this research is to analyse how these specific politics and policies related to reproduction and labour have affected the enjoyment of certain women s human rights therefore i will first review certain policies and politics of religious and nationalistic leaders to point out what initiatives they have undertaken in regards to women s reproductive rights moreover the thesis will elaborate the enjoyment of women s social economic rights and cultural rights such as labour rights art 6 cescr and the right to family life art 10 cescr that are set in the international covenant of economic social and cultural rights from 1966 thus it will be of interest to see how women s participation in the labour market has developed within the framework of changing political ideology and whether we can see significant developments not only for the question of whether women are being employed but also about which types of labour women are carrying out

this study illustrates some of the factors that contributed to disparate workers joining together in strike activity for shared short term interests in two new york city garment industry strikes the 1885 cloakmakers strike and the 1920 1921 american clothing workers of america lockout and strike are examined as two instances in which alliances across skill ethnicity and gender were possible in the labor movement whether fighting public anti union rhetoric loss of jobs ethnic and gender discrimination illegal piecework and or changes in the structure of the workplace both of these strikes brought temporary gains for workers thus standing out from a history of lost strikes an integrative analysis is employed by combining the roles of identity through a developed conception of transformative solidarity with the model of structures and processes transformative solidarity refers to the process of actors organizing together for short term goals despite differences with priority placed on selective incentives of organizing across difference this integrative approach of structures and transformative solidarity benefits from an historical comparative framework in this historical comparative framework the form of labor organizing in each strike the large scale processes of immigration the national economy and the political economy of new york city are viewed as pivotal in understanding the alliances across gender ethnicity and skill the irish and jewish skilled and unskilled men and women workers in the 1885 cloakmakers strike organized through the principles of craft unionism while the jewish and italian skilled and unskilled women and men of the amalgamated clothing workers of america relied on new unionism for their means of organizing despite temporal differences the use of alternative means for the structure of labor organizing and variance in the large scale processes both strikes were successful emphasis is placed on the variation possible in socio historical conditions that aid in breaking down barriers between diverse workers creating possibilities for temporary alliances the study grapples with a dualism inherent in sociology the division of the individual and society

from attention to agency and social structures this dissertation seeks to overcome this dualism through an integrative approach that illustrates the interconnections and mutual reliance on the one hand structures and processes and on the other identity in order to develop a more comprehensive understanding of alliances in the labor movement across workers of varied skill gender and ethnicity

this volume explores the politics of identity by analysing the intersections between ethnicity gender and nationalism in developing societies these markers of identity are not understood as constituting essences but as springing from people s core experiences yearnings and strategic life plans in a context where resources are scarce as such identities may be and are contested the intersections are traced across three areas social and cultural reproduction ideologies stereotypes and practices and nationalist politics and discourse which has tended to remove women from the public arena and construct an ideal of women s domesticity

written in a clear consistent style the third edition of the best selling text race ethnicity gender and class by joseph healey eloquently describes and at times simply serves as a conduit for a broad spectrum of experiences related to race ethnicity gender and class featuring in depth analyses of diversity within groups as well as the multiple interactions between them joseph healey addresses the experiences of women and many other minority groups throughout the text narrative portraits are integrated into each chapter and provide students with first person accounts and observations from a wide variety of people at the end of each chapter current debates present important issues through the ideas and writings of prominent scholars in addition photo essays are included at the end of many chapters visually reinforcing key concepts in a dramatic and memorable fashion recommended for courses on race and ethnic relations minorities race ethnicity and gender and race class and gender

major compilation of historical and anthropological articles focuses on the nature of markets and exchange structures in the andes prominent scholars explore andean participation in the european market structure the influence of migration in changing ethnic boundaries and spheres of exchange and the politics of market exchange during the colonial period larson s introduction places articles within the context of andean economic systems while harris concludes with an appreciation of the relationships between mestizo and indigenous ethnic identities in the context of market relations both introduction and conclusion lend a greater coherence to this carefully crafted and monumental volume handbook of latin american studies v 57

presents the competing explanations conservative liberal and radical for the persistence of racial sexual and economic inequality over 60 articles examine the influence of race and gender in the american economy all sides of these economic issues are presented in a fairly non technical way

from truman to clinton presidents have aggressively tried to expand their control over national government in the process they have vastly enlarged their white house staffs and politicized the federal bureaucracy with thousands of appointees in key administrative positions thomas weko argues that the presidential personnel office ppo charged with screening and recommending such appointees both exemplifies and helps explain the enormous growth of presidential power since world war ii originally conceived as a small advisory group within the white house office the ppo has grown enormously

from a staff of two under Truman to as many as sixty under other presidents and now oversees nearly four thousand appointments per administration. Weiko charts the PPO's evolution and influence and shows how central it is to our understanding of modern presidential leadership. Weiko's starting point is Terry Moe's rational choice theory that it is the institution of the presidency, not the sitting president, that fosters centralization and politicization within the executive branch, amplifying and extending Moe's theory. Weiko persuasively links the PPO's explosive growth to the weakening of political parties, the post-Eisenhower disintegration of policy networks, the growing impact of television news, and the public's increasing readiness to hold the president accountable for policy failures. The PPO's growth clearly has increased presidential control and bureaucratic responsiveness, but Weiko argues those results have had unanticipated and unwanted consequences that among other things have undermined the integrity and capabilities of administrative agencies. Any improvement in the leadership of the executive branch, he contends, can only emerge from changes in the current institutional arrangement of the presidency itself. Based on exhaustive research in White House files, oral histories, and memoirs, and personal interviews with over 100 White House aides, Weiko's study provides a provocative new look at the White House office and the modern presidency.
