currently depicted on the spanish flag may feature a lion as a heraldic animal but during the past centuries of iberian cultural history the taurine brute especially the so called toro de Osborne brandes 780 781 has become the country's unofficial more popular and widely known trademark symbol ibid this development is of course rooted in the nation's continuous passion for the bullfight and along with the flamenco dance the custom performance of tauromachy remains a pillar of patriotic identity for many spaniards it comes as no surprise then that the corrida features heavily in a wide selection of publications of virtually all literary genres among the more recent works in this field alison louise kennedy's on bullfighting provides an introduction to the past and

present of the tauromachy tradition and combines it with the scottish novelist s perspective on the act of literary composition as a non fictional version of kennedy narrates her progress in researching and writing about the corrida to the reader the following pages explore how she establishes parallels between the routines passions and beliefs of the literary artist and the matador respectively and then uses them to underline how both are devoted to exerting and expanding a level of control in their approaches to life and work for the writer this is particularly relevant with regards to his or her handling of inspiration and its implementation in the written word and the paper therefore closes with remarks on whether or not on bullfighting s a l kennedy succeeds in regaining her authoritative power over both aspects of her profession as she struggles through depression and a severe writer s block connected to past emotional trauma
