mastery of historical interpretation and the ability to express views and knowledge in writing the essays may relate documents to different areas analyze common themes of different time periods or compare individual and group experiences which reflect socioeconomic racial gender and ethnic differences part a consists of a mandatory 15 minute reading period followed by 45 minutes during which you must answer a document based question dbq which changes from year to year in part b the student chooses to answer on two of the topics that are given you will have 70 minutes to write these essays the free response section counts for 50 percent of your final grade these topics are broken down into thirds political institutions 1 3rd social and economic change 1 3rd behavior and public policy diplomacy and international relations intellectual and cultural development 1 3rd the time periods covered are as follows pre colonial through 1789 1 6th of exam 1790 1914 1 2 of exam 1915 present 1 3rd of exam about the review sectionthis book begins with rea s concise yet thorough 230 page review of u s history designed to acquaint you with the exam s scope of coverage our review covers these topics and historical time periods the colonial period 1500 1763 the american revolution 1763 1787 the united states constitution 1787 1789 the new national 1789 1824 jacksonian democracy and westward expansion 1824 1850 sectional conflict and the causes of the civil war 1850 1860 the civil war and reconstruction 1860 1877 industrialism war and the progressive era 1877 1912 wilson and world war i 1912 1920 the roaring twenties and economic collapse 1920 1929 the great depression and the new deal 1929 1941 world war ii and the post war era 1941 1960 the new frontier vietnam and social upheaval 1960 1972 watergate carter and the new conservatism 1972 2001 scoring the examthe multiple choice section of the exam is scored by crediting each correct answer with one point and deducting one fourth of a point for each incorrect answer you will neither receive a credit nor suffer a deduction for unanswered questions the free response essays are graded by instructors and professors from across the country who come together each june for a week of non stop ap essay grading

each essay booklet is read and scored by several graders each grader provides a score for the individual essays the dbq is scored on a scale from 0 to 15 0 being the lowest and 15 the highest each topic based essay receives a score from 0 to 9 these scores are concealed so that each grader is unaware of the previous graders assessments when the essays have been graded completely the scores are averaged one score for each essay so that the free response section generates three scores the total weight of the free response section is 50 percent of the total score your work in the multiple choice section counts for the other 50 percent each year grades fluctuate slightly because the grading scale is adjusted to take into account the performance of the total ap u s history test taker population when used with the corresponding chart the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual ap u s history exam

scoring the free response section for the free response section use this formula to calculate your raw score dbq essay 1 essay 2 raw score round to the nearest whole number you may want to give your essays three different grades such as a 13 10 and an 8 and then calculate your score three ways as if you did well average and poorly this will give you a safe estimate of how you will do on the actual exam try to be objective about grading your own essays if possible have a friend teacher or parent grade them for you make sure your essays follow all of the ap requirements before you assess the score the statistical formulations used by the ap program preclude our rea practice test scoring system from precisely replicating the procedures and determinations of the ap program bear in mind that the cut off point between each of the five ap grades typically shifts slightly from year to year this occurs both because one year s exam cannot be expected to be exactly as difficult as another year s and because no two test taker groups can be expected to be equally strong the composite score to

obtain your composite score use this method 1 13 x multiple choice raw score weighted multiple choice score do not round 2 73 x free response raw score weighted free response score do not round now add the two weighted sections together and round to the nearest whole number the result is your total composite score see the range within which your score falls on this table to approximate your final grade ap grade composite score range
