the first hospital affiliated surgical unit designed specifically for ambulatory surgery in the state of california began functioning as part of santa barbara cottage hospital in 1973 as this text is readied for publication the unit is in its tenth year of operation more than 20 000 patients have undergone surgery there the enthusiasm generated by ir experience in santa barbara along with the widespread growing interest in ambulatory surgery prompted us to undertake this volume the first three chapters cover principles and administrative aspects an esthesiology and nursing in the ambulatory surgical center subsequent chap ters the major portion of the text provide detailed meticulously illustrated descriptions of surgical procedures as they are done in the santa barbara cottage hospital outpatient surgical center by the surgeons who work there they reflect current practice and emphasize the techniques found most reliable by the surgeons who use them in the outpatient setting this manual includes many of the operations most commonly performed in our facility and emphasizes the unique aspects of surgery and patient care in outpatient practice the text is concise practical and based on our collective experience the illustrations are for the most part drawn from the surgeon s perspective and faithfully render the actual appearance of the operative field during surgery supplementary cross sectional and conceptual drawings are included to orient the reader

initially we asked springer verlag why they thought the world needed another book about aesthetic surgery they pointed to the popularity of the compre hensive manual of surgical specialties series suggesting that completeness required our contribution we recalled the current masters of aesthetic surgery rees sheen among others each had produced his own monograph all of them established classics what could we add furthermore none of us was recognized exclusively for aesthetic surgery achievements nevertheless each of us was committed to the challenge of teaching residents aesthetic surgery during their residency not afterward as was done in the past furthermore dick egdahl senior editor and designer of cmss made clear to us the specific orientation of the manuals to residents in training as did springer verlag well known for their commitment he won our support to high quality color illustrations we appreciate being asked by dr egdahl to contribute to cmss we were not even offended by his original plan to embrace all of plastic surgery in one volume he should have known better the manual of reconstructive surgery will follow this volume in 2 years defining its scope

remains an unmet challenge limiting the scope of manual of aesthetic surgery has been an easier task it is a sourcebook for beginning residents not an encyclopedic reference

this book serves as a concise surgical manual that quickly references the latest information essential for determining the policies of surgical patient care and pre and post operative treatment it is a necessary guide not only for surgical residents and medical students but also for practicing surgeons features of this book 1 provides information on surgical care through a systematic approach to surgery related topics 2 reflects the latest research findings and recommendations on the rapid development and evolution of the surgical field 3 covers a wide range of topics and areas in surgical surgery including patient management before and after surgery basic techniques and procedures management of complications fluids and nutrition 4 offers practical guidance that can help in real surgical situations and practice 5 available in a pocket size that can be easily referred to at any time 6 an english edition that can be referenced by medical professionals both in the korea and abroad table of contents contributors preface to the 5th edition of snu manual of surgical preface to the 1st edition preface to the 2nd edition preface to the 3rd edition preface to the 4th edition i basic considerations 01 surgical infections and antibiotics 02 fluids and nutrition 03 critical care medicine 04 surgical complications 05 preoperative evaluation and management for medical disease 06 basic surgical skills 07 symptomatic surgical management ii specific considerations 01 liver 02 bile duct and pancreas 03 gastrointestinal tract 04 small intestines 05 colon rectum and anus 06 breast 07 endocrine 08 vascular 491 09 kidney and pancreas transplantation 10 pediatric surgery 11 trauma 12 liver transplantation index
