the story of how a much contested legal category statelessness transformed the international legal order and redefined the relationship between states and their citizens two world wars left millions stranded in europe the collapse of empires and the rise of independent states in the twentieth century produced an unprecedented number of people without national belonging and with nowhere to go mira siegelberg s innovative history weaves together ideas about law and politics rights and citizenship with the intimate plight of stateless persons to explore how and why the problem of statelessness compelled a new understanding of the international order in the twentieth century and beyond in the years following the first world war the legal category of statelessness generated novel visions of cosmopolitan political and legal organization and challenged efforts to limit the boundaries of national membership and international authority yet as siegelberg shows the emergence of mass statelessness ultimately gave rise to the rights regime created after world war ii which empowered the territorial state as the fundamental source of protection and rights against alternative political configurations today we live with the results more than twelve million people are stateless and millions more belong to categories of recent invention including refugees and asylum seekers by uncovering the ideological origins of the international agreements that define categories of citizenship and non citizenship statelessness better equips us to confront current dilemmas of political organization and authority at the global level

forced migration shaped the creation of canada as a settler state and is a defining feature of

our contemporary national and global contexts many people in canada have direct or indirect experiences of refugee resettlement and protection trafficking and environmental displacement offering a comprehensive resource in the growing field of migration studies forced migration in to canada is a critical primer from multiple disciplinary perspectives researchers practitioners and knowledge keepers draw on documentary evidence and analysis to foreground lived experiences of displacement and migration policies at the municipal provincial territorial and federal levels from the earliest instances of indigenous displacement and settler colonialism through black enslavement to statelessness trafficking and climate migration in today s world contributors show how migration as a human phenomenon is differentially shaped by intersecting identities and structures particularly novel are the specific insights into disability race class social age and gender identity situating canada within broader international trends norms and structures both today and historically forced migration in to canada provides the tools we need to evaluate information we encounter in the news and from government officials colleagues and non governmental organizations it also proposes new areas for enquiry discussion research advocacy and action
