love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do in love's vision troy jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality at the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational rather as diotima says in plato's symposium love is something in between jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one this view recognizes the truth in

there are thousands of books that represent the holocaust but can and should the act of reading these works convey the events of genocide to those who did not experience it in textual silence literary scholar jessica lang asserts that language itself is a barrier between the author and the reader in holocaust texts and that this barrier is not a

lack of substance but a defining characteristic of the genre holocaust texts which encompass works as diverse as memoirs novels poems and diaries are traditionally characterized by silences the authors place throughout the text both deliberately and unconsciously while a reader may have the desire and will to comprehend the holocaust the presence of textual silence is a force that removes the experience of genocide from the reader's analysis and imaginative recourse lang defines silences as omissions that take many forms including the use of italics and quotation marks ellipses and blank pages in poetry and the presence of unreliable narrators in fiction while this limits the reader's ability to read in any conventional sense these silences are not flaws they are instead a critical presence that forces readers to acknowledge how words and meaning can diverge in the face of events as unimaginable as those of the holocaust
