the theory and practice of taiji qigong presents an easy to learn system of 18 energy enhancing exercises that coordinate movement with mindful breathing and inner awareness to improve health and flexibility and cultivate balance and mindfulness

this book teaches tai chi qigong exercises that are useful for improving your tai chi skills and overall health tai chi chuan is an internal martial art that uses soft round movements to redirect an opponent s incoming force qigong exercises are an internal method of increasing and circulating your body s energy qi if you already know a tai chi form here are a few ways that you will

use tai chi qigong to reach new levels of skill and ability to feel qi to regulate body breathing and intention to learn how to use intention to lead qi to learn how to circulate qi to learn how to expand qi to learn how to use qi to energize muscles accelerates the health benefits of tai chi if you don't know tai chi but want to benefit from qigong exercises here are a few ways tai chi qigong can help you the exercises are short and easy to learn they help reduce stress they loosen muscles and joints they stimulate qi flow they can help develop a strong immune system they sharpen concentration they build a deeper awareness of breath and body coordination this edition includes a modern easy to follow layout every qigong movement is presented in 2-4 large photographs with clear instructions followed by a discussion of how the movements aid in improving tai chi practice

teaches the purpose and methods of taiji qigong and demonstrates techniques including stretching warm up exercises wai dan standing still meditation stationary taiji qigong primary coiling and rocking sets and walking taiji qigong

in this book there are 22 taiji qi gong exercises described these exercises improve energy intake strengthen the self-healing powers and bring about a balance of the vegetative nervous system they promote concentration and inner peace they have a positive effect on the digestive organs the muscles the tendons joints and the spine the increased oxygen intake strengthens the heart and lungs

taiji qigong is a gentle easy to learn system of energy enhancing exercises that coordinate movement with mindful breathing and inner awareness which when practiced regularly will give you more energy improve health and help prevent illness this book is designed to inform all levels and depths of practice regardless of whether you are completely new to the subject or are looking to enrich your current understanding you will find a treasure trove of information from which to build a practice specific to your own goals such as improving flexibility cultivating mindfulness or getting a better night's sleep part i provides a thorough grounding in the theory and practice of qi and qigong part ii discusses the general principles of qigong practice clarifying common questions about how to practice 15 minutes a day is a good starting point 30 minutes will provide a marked increase in vitality and serenity how to achieve an optimum stance and what breathing techniques should be used natural breathing abdominal breathing and reverse abdominal breathing part iii examines the 18 movements of taiji qigong with step by step illustrated instructions detailed information on the benefits of

each stance additional technique tips and insights into how movement flow can be enhanced through the power of the mind at the back of the book is a handy reference chart for quick practice reminders practice the full 18 movements or simply pick and choose the ones you like best

this authoritative guide helps beginning students explore deeper levels of taijiquan practice and is usable by every taijiquan style

in depth instruction manual for the practice of the 18 stances of taiji qigong back cover includes theory and general principles of practice

beyond the barehand form beyond the qigong lies the elegant and effective sword of taijiquan learn to extend your qi enhance your art and refine your self this comprehensive guide contains not only the complete taiji sword form and taiji sword qigong set but also seldom taught sword fighting applications and matching exercises more than just a how to this book also contains theory history and a complete guide to fundamentals all essential to building a deep understanding of this art long considered to be the highest achievement in taijiquan as well as the most popular of the taiji weapons strengthen and relax your body calm and focus your mind improve your balance develop proper taiji breathing learn the complete sword form and taiji sword qigong over 400 photos with detailed instruction

for taijiquan to be a complete system learning and practicing taiji qigong on a regular basis is essential for the proper development of the energy of the body mind and spirit taiji qigong the energetic foundation of taijiquan features detailed guidelines on how to take your taijiquan practice to the next level this book covers the early development of taijiquan qigong theory and the fundamentals of a successful qigong practice included are preparation and closing exercises to ensure a safe effective practice detailed illustrated instructions for basic standing meditation holding the post zhao zhuang and intermediate standing meditation 10 posture wei dan gong teaches rooting mental concentration yi and relaxing within the structure of a posture fa sung four simple qigong movement exercises for enhancing the body's guardian energy wei qi and peng jin the mother energy of taijiquan

wu hengdong is a 6th level master of taiji quan in this book he has brought together years of experience as both practitioner and teacher to help students of all levels including beginners to understand the principle of qigong meditation this book aims to help students quickly master the key points of tai chi qigong it is structured to make qigong easy to learn and

understand with a clear logical direction for learning beginners can achieve the coordination of their mind qì shape and spirit during their practice by training their breath and improving the flow through the body's meridians this book is written around tai chi based on my own practice of the martial arts it focuses on tai chi's method of gathering qì and includes several kinds of standing meditation exercises it elaborates on the stages of tai chi practice and concretizes the theory of tai chi with classroom practice aiming to help students at home and abroad to improve their practice after class and more clearly grasp tai chi in depth it is not necessary in the early stages for students to concentrate too much on the ideas behind qìgong only by practicing seeing listening thinking and becoming more self-aware can we naturally sense the existence of qì this book is proposed in both english and chinese with the chinese text arranged after the english in this way we hope not only to allow readers to improve their qìgong practice but to help those learning english or chinese to improve their language skills master wu hengdong is founder and principal teacher at the yangshuo traditional tai chi school in guangxi province chinasee kimtaichichina.com for more information

this book offers beginners a comprehensive introduction to tai chi a step by step guide to learning the complete form and the fundamentals necessary for correct practice

taijiquan is internal alchemy in motion and the taiji qigong form and supplemental exercises in tai ji qi volume one of the chen kung series represent the very foundation for the internal alchemy aspects in the practice of taijiquan the information in stuart alve olson's six volume chen kung series available to the chinese reader for nearly eighty years covers the entire yang family system of taijiquan practice and philosophy chen kung's original chinese book published in 1936 is a distinct and invaluable resource that is now accessible to english readers through the brilliant translation work and insightful commentary of stuart alve olson no matter what style of taijiquan tai chi chuan you practice or what level of skill you have achieved the chen kung series will greatly broaden your knowledge and skills as it is truly a master's program on the art of taijiquan

this book is a book about tai chi qi gong and standing meditation the book is both an introduction to and an in-depth presentation the book addresses the beginner the more experienced student and the teacher it covers the martial as well as the civil art of tai chi there are many training systems that are focused on strengthening the body but that have very little or no relevance

to the strengthening and development of the mind in reverse there exist many meditative practices which are focused on the strengthening and development of the mind but in the same way neglect the body tai chi qi gong and standing meditation are training systems which both strengthen the mind the ability to use the body more appropriately as well as strengthening the internal organs they will help you find tranquility balance rest and regeneration and help the individual to become better at exactly what he or she yearns for they increase the ability to focus and at the same time develop that part of our nervous system that deals with calm rest and recovery in this current day and age the obsession with how looking fit equals good health is a relatively new phenomenon when seen in relation to how long mankind has existed tight hard and knotted muscles are erringly seen as being fit it can be difficult to accept and understand that training is definitively not about exhausting oneself in order to achieve good healthy results especially as we have been indoctrinated by phrases like no pain no gain reality is rather different systems of movement like tai chi and qi gong which strongly encourage the balancing of bones and joints and where the movements are aimed at being liquid with a release of the joints while letting go of all unnecessary muscle tension are a far better bid at an appropriate form of exercise this way the muscles are being exercised without fatigue the physical balance is developed while flexibility and mobility are preserved added to this is a strengthening of the bones and the integration of body and mind as well as one's own experience of peace and wellbeing a well balanced skeleton is the foundation for relaxed muscles and free movement of the joints the book is based on the author's experience of more than 30 years and contains a wealth of training tips instructive photos and links to video clips of key exercises it also includes excerpts from his dairies and anecdotes from his personal experiences with some of his teachers teachers who are among the very best when it comes to internal martial arts as well as qi gong standing meditation zhan zhuang will be a cornerstone and common thread throughout the book in this you will experience time and again how the author return to standings and describe new angles and new takes on the subject torben bremann the author was born in 1960 he started learning taiji and qigong in 1987 from master chu king hung disciple of master yang shou shung in 1989 he came in contact with master chen guan ming and in 1994 he became a student and disciple of the latter's master he gong de and amongst other things learned chen style zhanzhuang standing and emei qigong from him until his death in 1999 from 1991 1998 he also received teaching from patrick kelly a long time student of master huang xingxian in 1998 he was introduced to master yek

sing ong and master wee kee jin from whom he has learned taiji and zhanzhuang from 1999 to 2007 he was a private student and close friend of wee kee jin in 2005 he was accepted as a private student by master sam tam in taiji zhan zhuang qigong etc apart from these he has had several other teachers as mentioned in the book he has amongst other things an education in traditional chinese medicine psychomotor therapy psychotherapy is a specialist in anatomy motion analysis and physical training and has a background in both western and eastern medicine

taijiquan is internal alchemy in motion and the taiji qigong form and supplemental exercises in tai ji qi volume one of the chen kung series represent the very foundation for the internal alchemy aspects in the practice of taijiquan the information in stuart alve olson s six volume chen kung series available to the chinese reader for nearly eighty years covers the entire yang family system of taijiquan practice and philosophy chen kung s original chinese book published in 1936 is a distinct and invaluable resource that is now accessible to english readers through the brilliant translation work and insightful commentary of stuart alve olson no matter what style of taijiquan tai chi chuan you practice or what level of skill you have achieved the chen kung series will greatly broaden your knowledge and skills as it is truly a master s program on the art of taijiquan

tai chi ball qigong training is an important component of proper tai chi chuan practice for martial artists tai chi ball qigong training can strengthen the torso condition the muscles and increase physical power by using the mind to lead the qi it can be a major training tool to enhance pushing hands ability for general exercise tai chi ball qigong training helps those who might overly focus on core body exercises to strengthen their hips knees and ankles you will improve movement of the spine increase energy through various breathing techniques and learn to move many joints properly at different angles this book includes history of tai chi ball theory of tai chi ball qigong tai chi ball warm ups tai chi ball fundamentals tai chi ball breathing tai chi ball exercises tai chi ball partner exercises tai chi ball advanced practice in all my years of teaching i believe that tai chi ball qigong is one of the most powerful exercises i have ever seen to rebuild the entire body s health dr yang jwing ming

increase your strength improve your health and discover greater martial power with ten separate sets of qigong exercises a special chapter discusses the application and uses of qi and qigong for enhancing martial arts ability as well as a section on soothing massage techniques to help recover quickly

from various injuries
