an astonishingly revisionist biography of alexander graham bell telling the true and troubling story of the inventor of the telephone we think of alexander graham bell as the inventor of the telephone but that s not how he saw his own career bell was an elocution teacher by profession as the son of a deaf woman and later husband to another his goal in life from adolescence

was to teach the deaf to speak even his tinkering sprang from his teaching work the telephone had its origins as a speech reading machine and yet by the end of his life despite his best efforts or perhaps more accurately because of them bell had become the american deaf community s most powerful enemy the invention of miracles recounts an extraordinary piece of forgotten history weaving together a moving love story with a fascinating tale of innovation it follows the complicated tragedy of a brilliant young man who set about stamping out what he saw as a dangerous language sign the book offers a heartbreaking look at how heroes can become villains and how good intentions are unfortunately nowhere near enough as well as a powerful account of the dawn of a civil rights movement and the triumphant tale of how the deaf community reclaimed their once forbidden language katie booth has been researching this story for over a decade poring over bell s papers library of congress archives and the records of deaf schools around america but she s also lived with this story for her entire life witnessing the damaging impact of bell s legacy on her family would set her on a path that upturned everything she thought she knew about language power deafness and the telephone

this is a fascinating enjoyable book it could well be used in study groups at the high school or college level to explore both history and attitudes toward deafness rehabilitation literature the editors are not enthralled as so many of us seem to be simply that deaf or disabled characters exist in literature they ask why the rest of the disability movement could learn from them the disability rag dickens welty and turgenev are only three of the master storytellers in angels and outcasts this remarkable collection of 14 short stories offers insights into what it means to be deaf in a hearing world the book is divided into three parts the first section explores works by nineteenth century authors the second section concentrates on stories by twentieth century authors and the final section focuses on stories by authors who are themselves deaf each section begins with an introduction by the editors and each story is preceded by a preface angels and outcasts concludes with an annotated bibliography of other prose works about the deaf experience in addition to fascinating reading it provides valuable insights into the world of the deaf trent batson is director of academic technology at gallaudet university eugene bergman former associate professor of english at gallaudet university is now retired

taking an original approach to american literature christopher krentz examines nineteenth century writing from a new angle that of deafness which he shows to have surprising importance in identity formation the rise of deaf education during this

period made deaf people much more visible in american society krentz demonstrates that deaf and hearing authors used writing to explore their similarities and differences trying to work out the invisible boundary analogous to du bois s color line that krentz calls the hearing line writing deafness examines previously overlooked literature by deaf authors who turned to writing to find a voice in public discourse and to demonstrate their intelligence and humanity to the majority hearing authors such as james fenimore cooper lydia huntley sigourney herman melville and mark twain often subtly took on deaf related issues using deafness to define not just deaf others but also themselves as competent and rational helping form a self consciously hearing identity offering insights for theories of identity physical difference minority writing race and postcolonialism this compelling book makes essential reading for students of american literature and culture deaf studies and disability studies

for centuries people have loved tales shared by poets homer chaucer and many others in the late nineteenth century people were mesmerized by the tales of traversing the bush country of australia as told meticulous detail by a deaf poet named henry lawson in this collection of verses poet curtis robbins who is himself deaf shares a tale of a group whom very few hearing people know about or understand the poems in this collection present a story told daily among deaf people they focus on the details and moment to moment experiences of what it s like to be a normal deaf person robbins explores the conflicts faced among deaf people with hearing people and on our own he examines the inhibitions and exhibitions that are characteristically ingrained into the lives of deaf people he also considers the work of deaf australian poet henry lawson celebrating his legacy in this collection of verse robbins seeks to embellish ostracize epitomize chastise advocate and reflect upon his own observations thoughts and visions about what it is about being deaf without ever resorting to be invective but rather exonerating those realities

contains 273 entries to information derived from the sciences the social sciences and the humanities comprehensive coverage including biographical subject and historical information many entries contain sub topics articles are signed and include references index in last volume

the encyclopedia of new york state is one of the most complete works on the empire state to be published in a half century in nearly 2 000 pages and 4 000 signed entries this single volume captures the impressive complexity of new york state as a

historic crossroads of people and ideas as a cradle of abolitionism and feminism and as an apex of modern urban suburban and rural life the encyclopedia is packed with fascinating details from fields ranging from sociology and geography to history did you know that manhattan s lower east side was once the most populated neighborhood in the world but hamilton county in the adirondacks is the least densely populated county east of the mississippi new york is the only state to border both the great lakes and the atlantic ocean the erie canal opened new york city to rich farmland upstate and to the west entries by experts chronicle new york s varied areas politics and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads weaving the state s diverse regions and peoples into one idea of new york state lavishly illustrated with 500 photographs and figures 120 maps and 140 tables the encyclopedia is key to understanding the state s past present and future it is a crucial reference for students teachers historians and business people for new yorkers of all persuasions and for anyone interested in finding out more about new york state

from the pbs film 200 photographs and text depict the american deaf community and its place in our nation s history

this book is a comprehensive and up to date treatment of the major psychological social and educational issues affecting the lives of children adolescents and adults who are deaf and hard of hearing and their families psychological social and educational dimensions of deafness presents an inclusive description of current research and practice that is complemented by the voices of individuals through personal essays that highlight and illustrate significant concepts and trends professionals and pre professionals preparing for roles in education psychology counseling rehabilitation interpreting and speech and hearing science will find the book timely readable and thorough each chapter focuses on a topic relevant to the broad scope of issues related to the lifelong development of individuals who are deaf and hard of hearing the chapters can also provide in depth discussion and offers a core of current information from which instructors and readers can apply both personal and professional experiences for therapists counselors or psychologists working with people who are deaf and their families or anyone interested in gaining more knowledge on deafness
