makes an original and important contribution to deleuze studies

ernst cassirer s philosophy of culture has been much discussed in recent years however it remains unclear how it evolved from his older theory of knowledge this study deals with this question on the basis of cassirer s disposition

of a philosophy of the symbolic reconstructed here for the first time this text shows that the symbolic refers to culture as a whole and to its inherent diversity therefore the symbolic includes the relationship between the general transcendental conditions of culture and its empirical specificities in language and languages art and the arts myth and myths science and disciplines cassirer does not comprehend this empirical and specific reality of symbolization depending on pre existing transcendental conditions instead he proceeds from the empirical diversity of the symbolisations and reflects on their simultaneously general and specific conditions thus cassirer embarks on a path that he finds paved in kant s critique of judgement he consequently defines the symbolic as the horizon for a reflective approach based on empirical findings and not as the foundation of a systematic derivation of the diversity of culture in the style of the idealistic tradition

the behaviour of gold in sedimentary magmatic and postmagmatic processes are studied and 40 gold bearing minerals including ten which were recently discovered are described the results are presented of new experimental studies on phase relations in gold sulphide systems the solubility form of gold migration in high temperature chloride sulphide and arsenic solutions are determined based on the new data the genesis of gold deposits is studied and a geochemical classification proposed this book is designed for specialists in the field of gold chemistry geochemistry and mineralogy and for field geologists surveying and prospecting for gold

this book adopts a principled approach to the law applied in the construction of commercial contracts this approach is presented as part of a coherent theory of the law of contract construction which makes a unique contribution to scholarship and understanding of the most important aspect of the practice of commercial lawyers the law is explained by reference to three stages in construction it distinguishes the preliminary stage in which context is established from the meaning and application stages of contract construction the approach provides insights both into the practical problems that lawyers face in particular in relation to admissibility of extrinsic evidence and the theoretical underpinnings of the subject the book also explains the relationship between intention and construction and discusses general and specific rules that determine the results of construction disputes each chapter is introduced by statements of its objectives and the book includes simple definitions of key concepts as well as summaries of the complex principles which comprise the law of construction in illustrating construction principles and their application the exposition of the law draws on the author s knowledge of australian contract law and the influence and role of the unidroit principles cisg and the american restatement second contracts

this volume contains revised and extended versions of a selection of the papers presented at the amsterdam workshop on language contact and creolization these studies apply the concept of relexification to creoles as well as other contact languages highlight the relevance of strategies of second language learning for theories of pidgin creole genesis critically discuss the notions levelling koine formation and convergence the relation between types of contact situations and processes of crosslinguistic influence as well as the linguistic consequences of the social structure of the plantation system in addition to discussing english french and dutch related creoles the papers cover a wide range of contact languages spoken throughout africa asia and europe the breadth and coverage makes this an indispensable title for research in the field of contact linguistics

wolfgang glatthaar international business machines ibm gennany the rapid developments in information technology it will continue through the coming years new application areas will be added whereas the use of information technology in the past decade has been concentrated primarily on business and public administration in future the suppliers of information technology will develop an increasing number of applications for the private household see fig 1 traditional perspective new perspective it solutions for the it solutions for the company private household fig 1 new perspective on information technology this development has already generated considerable market dynamics latest forecasts for the usa suggest that by 1996 at the latest the private household will present greater sales potential for home computers than business and public administration vi preface up to now the use of information technology in the private household has not been regarded as highly significant by either business or science even though pcs have become widespread in the private sphere in the esprit framework there have been individual projects dealing with home networks and in a number of asian and european countries as well as america experiments with interactive television are taking place internet and commercial online services are experiencing rapid growth this application area for information technology in the private household which is generating increasing business attention must also be the subject of appropriate research activities

the essential husserl the first anthology in english of edmund husserl s major writings provides access to the scope of his philosophical studies including selections from his key works logical investigations ideas i and ii formal and transcendental logic experience and judgment cartesian meditations the crisis of european sciences and transcendental phenomenology and on the phenomenology of the consciousness of internal time the collection is an indispensable resource for anyone interested in twentieth century philosophy

phenomenology was one of the twentieth century's major philosophical movements and it continues to be a vibrant and widely studied subject today with relevance beyond philosophy in areas such as medicine and cognitive sciences the routledge handbook of phenomenology and phenomenological philosophy is an outstanding guide to this important and fascinating topic its focus on phenomenology's historical and systematic dimensions makes it a unique and valuable reference source moreover its innovative approach includes entries that don't simply reflect the state of the art but in many cases advance it comprising seventy five chapters by a team of international contributors the handbook offers unparalleled coverage and discussion of the subject and is divided into five clear parts phenomenology and the history of philosophy issues and concepts in phenomenology major figures in phenomenology intersections phenomenology in the world essential reading for students and researchers in philosophy studying phenomenology the routledge handbook of phenomenology and phenomenological philosophy is also suitable for those in related disciplines such as psychology religion literature sociology and anthropology

heidegger's being and time critical essays provides a variety of recent studies of heidegger's most important work twelve prominent scholars representing diverse nationalities generations and interpretive approaches deal with general methodological and ontological questions particular issues in heidegger's text and the relation between being and time and heidegger's later thought all of the essays presented in this volume were never before available in an english language anthology two of the essays have never before been published in any language dreyfus and guignon three of the essays have never been published in english before grondin kisiel and thomä and two of the essays provide previews of works in progress by major scholars dreyfus and kisiel

this collection of essays on seventeenth century virginia the first such collection on the chesapeake in nearly twenty five years highlights emerging directions in scholarship and helps set a new agenda for research in the next decade and beyond the contributors represent some of the best of a younger generation of scholars who are building on but also criticizing and moving beyond the work of the so called chesapeake school of social history that dominated the historiography of the region in the 1970s and 1980s employing a variety of methodologies analytical strategies and types of evidence these essays explore a wide range of topics and offer a fresh look at the early religious political economic social and intellectual life of the colony contributors douglas bradburn binghamton university state university of new york john c coombs hampden sydney college victor enthoven netherlands defense academy alexander b haskell university of california riverside wim klooster clark university philip levy
