the chapters presented in this book draw on ethnography as a methodology in a variety of disciplines including education management design marketing ecology and scientific contexts illustrating the value of a qualitative approach to research design the chapters discuss the use of traditional ethnographic methods such as immersion observation and interview as well as innovative ethnographical methods which have been influenced by the new digital culture the latter challenges notions of identity

field and traditional culture such that people are able to represent themselves in the research process rather than be represented new approaches to ethnography also examine the use and implication of images in representation as well as critically examining the role and impact of the researcher in the process

this open access book delves into the politics of oppression and dispossession driven by global neoliberalism and state authoritarianism challenging liberal biases it introduces the concept of neoliberal authoritarianism highlighting how the russian state has transformed within the context of neoliberal globalization into a new state formation where authoritarianism is reinforced by neoliberal rationalities the book analyzes neoliberal authoritarianism through an ethnographic lens on universities and their governance which have become a new frontier of neoliberal economic development serving the imperatives of growth and competition

originally published in 1964 by the smithsonian institution s bureau of american ethnology this book is a compilation of the ethnographic data on the seventeenth century huron indians contained in the je suit relations and in the writings of samuel de champlain and gabriel sagard this study of the hurons who lived in the present province of ontario canada spans the period from 1615 to 1649 when they were defeated and dispersed by the iroquois topics covered include dress modes of travel trade war sociopolitical organization subsistence activities and religious beliefs and practices the book is invaluable for indicating the cultural similarities and differences between the hurons and the neighboring northern iroquoian cultures and for documenting evidence of cultural change this first paperback edition also includes a new introduction by the author in which she brings her work up to date by surveying developments in the study of the huron ethnography between 1964 and the present

lipsi forms a modern construction that has disconnected from its past recently the community has formed a collective identity reconstructed from fragments of collective memory this book is an ethnographic account of the mythology proposed by the community and examines how history and collective memory tightly interconnect

in this first detailed account of growing up in tonga helen morton focuses on the influence of anga fakatonga the tongan way in all facets of tongan childhood from the antenatal period to late adolescence childhood is a crucial period when cultural identity and notions of tradition are constructed as well as beliefs about self personhood and emotion based on her anthropological fieldwork and her experiences in tonga over several years morton traces the tongan socialization process from being vale ignorant socially incompetent to becoming poto clever socially competent in fascinating detail the socialization of emotion is also given detailed attention

especially the management of anger and emphasis on emotional restraint

the discovery just forty years ago of vast oil and gas reserves in the southwestern part of norway and more recently in the arctic high north region created an economic titan and posed a vast array of challenges for both the norwegian government and the residents of this area how to extract and transport all that oil and gas without despoiling the pristine environment how to use this wealth in a socially responsible and sustainable way how to prepare the rural high north citizens traditionally fishermen and farmers for a global high tech economy adopting an original narrative approach to qualitative research this book tells the stories of 21 individuals either living or having a genuine interest in the high north from mayors and entrepreneurs to farmers and fishermen through these first hand meetings it constructs an ethnographic study that reveals how petroleum and development have impacted on the regional economy and culture this book will be of interest to all stakeholders in the oil and gas industry and for students and scholars of organization studies cultural and communication studies environmental anthropology natural resource management and sustainable development

the perfumery arts in asia have traditionally been presented as exotic or in recent decades mainly ignored the ethnographic report in hand recalibrates the character and meaning of perfumery in the islamic world illustrated by the local example of adan lahj by retelling the stories which have become associated with specific fragrances there the author simultaneously introduces the reader to the history and culture of islam and the southern edge of yemen the cultural exchange along the indian ocean rim and within the colonial empires supported the spread and refinement of aromatics the result is a new and fascinating portrayal and explanation of perfumery in general as well as of its tradition and special features in west asia up to recent times

the author draws a parallel between jamaican understandings of the self and the late philosophy of immanuel kant the ethnographic material presented here derived from two years fieldwork in kingston suggest that jamaicans understand themselves as global citizens this sense of self can be identified across multiple contexts oral performance music kinship and friendship economics and politics in light of jamaican cultural experience the book argues for a reframing of ethnographic practice as an explicitly cosmopolitan cultural practice book jacket

based on nine years of research this is the first book to offer an in depth ethnographic study of a transnational environmentalist federation and of activists themselves the book presents an account of the daily life and the ethical strivings of environmental activist members of friends of the earth international foei exploring how a

transnational federation is constituted and maintained and how different people strive to work together in their hope of contributing to the creation of a better future for the globe in the context of foie a great diversity of environmentalisms from around the world are negotiated discussed and evolve in relation to the experiences of the different cultures ecosystems and human situations that the activists bring with them to the federation key to the global scope of this project is the analysis of foie experiments in models for intercultural and inclusive decision making the provisional results of foie s ongoing experiments in this area offer a glimpse of how different notions of the environment and being an environmentalist can come to work together without subsuming alterity

critiques the very essence of development policy especially the complex relationship between policy and practice and role of participation
