the eleventh and twelfth centuries comprised a period of great significance in islamic history the great saljuqs a turkish speaking tribe hailing from central asia ruled the eastern half of the islamic world for a great portion of that time in a far reaching analysis that combines social cultural and political history omid safi demonstrates how the saljuqs tried to create a lasting political presence by joining forces with scholars and saints among them a number of well known sufi muslims who functioned under state patronage in order to legitimize their political power saljuq rulers presented themselves as champions of what they alleged was an orthodox and normative view of islam their notion of religious orthodoxy was constructed by administrators in state sponsored arenas such as madrasas and khanaqahs thus orthodoxy was linked to political loyalty and disloyalty to the state was articulated in terms of religious heresy drawing on a vast reservoir of primary sources and eschewing anachronistic terms of analysis such as nationalism safi revises conventional views both of the saljuqs as benevolent muslim rulers and of the sufis as timeless ethereal mystics he makes a significant contribution to understanding premodern islam as well as illuminating the complex relationship between power and religious knowledge

an anxious inheritance examines the role of the ever expandable category of non muslims in early islam it demonstrates how the qur'an functioned as both a script to understand them and as a map to classify them and this category's role in shaping sunni orthodoxy this orthodoxy was considered natural but in fact it was based on retroactive back projections non muslims and the wrong kinds of muslims became integral to understanding what true religion was not and what it should be these non muslims were rarely real individuals or groups rather they functioned as textual foils that could be conveniently orchestrated and ultimately controlled to facilitate self definition

no sectarian division has had a more momentous impact than that between the two dominant branches of islam widely considered the world's leading expert on the subject toby matthiesen offers the full story of the sunni shia split delving down to its roots in the early days of islam and following it to the present day and its effect on current events not just in the middle east but globally

this book is a comparative analysis of the medieval sunni historiography of the caliphate of uthman b affan and the revolt against him by comparing treatments of uthman in pietistic literature and universal chronicles the work traces the gradual silencing of more critical accounts in favor of those that portray uthman as a saintly companion of the prophet muhammad through a comparative analysis of authors between genres and time periods this book shows how authors were able to convey their personal perspectives on important religio political tensions that emerged through the revolt against uthman namely the tension between sunnis and shiis religious and political authority and appeals to maintain stability and unity vs appeals for greater justice this last debate which in many ways began with the revolt against uthman has been repeated most recently in the arab spring this work therefore provides readers with helpful historical context for important contemporary debates

in 1105 damascene muslim jurist al sulami d 1106 dictated a call to the military jihad against the

European invaders entitled *Kitab al Jihād al Sulamī*. His work summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted. The text is vital for understanding the Muslim reaction to the Crusades and provides the first contemporary record of Muslim preaching against the Crusaders. This book provides a complete edition and the first full English translation of the extant sections of the manuscript, making it available to modern readers for the first time. An introductory study explores al Sulamī's influences and techniques and suggests possible directions for future study. An appendix provides translations of jihad sermons by Ibn Nubata al Fariqī d. 985, a preacher whose rhetorical style influenced al Sulamī's work.
