1st ed 1983

recounts the life of aung san father of nobel prize for peace winner aung san suu ky and principal leader in burma s struggle for independence from great britain

this work compiles selected speeches letters and statements by the father of burmese independence aung san the editor s introduction offers an overview of this remarkable man s life thought and achievements the documents included here

provide insight into the politics of aung san an eminently pragmatic leader focused on attaining both national unity and social harmony through his own words

focuses on the state's efforts to industrialize myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948-88 and lately 1989 onwards through state managed outward orientation

aung san suu kyι spoke passionately about non violence she wrote involved articles about compatibility of democracy with buddhism and she won the hearts and minds of so many with her call for the freedom from fear it seemed for more than two decades that suu kyι was a perfect non western propagator of democracy human rights rule of law yet a deeper analysis reveals that suu kyι intellectually indeed has been a democrat all along but a burmese democrat suu kyι understands democracy in a buddhist way and she reasons about politics using buddhist ideas idioms and concepts this buddhist dominance of her political thought had several consequences the most important one being that her approach to politics has first and foremost been a moral one her vision of democracy and of politics in general is a moral vision it is something i propose to call the moral democracy the same reason that made her famous and admired worldwide now contributed to her fall from grace for too many outside burma myanmar it is impossible to understand how suu kyι yesterday's global personification of good and morality can now silently endorse crimes against humanity conducted in her country and accept forced relocation of 700 thousand people a cynic would quote bertrand russell's words we have two kinds of morality side by side one which we preach but do not practice and another which we practice but seldom preach and add a commentary that it applies especially to politicians one however may offer a more favourable explanation that suu kyι represents a tragic clash of ideas including moral ideas with political reality whatever the case it was morality that made her famous it was the same moralistic attitude that contributed to her removal from international olympus and it is this moral understanding of politics that is the hallmark of her political thought which is here to stay for longer as political ideas last longer than changing political circumstances and fashions from the preface the dramatic fall from grace of burma's human rights icon aung san suu kyι shocked the world michał lubina's magisterial account of aung san suu kyι's political education demystifies the behavior in power of this otherwise enigmatic leader this is the indispensable book for anyone who wants to understand the mind of one of the world's most controversial women prof salvatore babones university of sydney dr michał lubina known in poland for portraying aung san suu kyι not as a human rights activist but as a realist politician in the very footsteps of her father now

comes out with his research to the international audience following the example of mahbubani's can asian think lubina shows the intellectual and philosophical tradition of myanmar through the case study of suu kyi's political thought it's a unique undertaking that presents suu kyi from an unexpected angle as a theoretician and political thinker or sage both the scope of research done and the material presented are very impressive and rather unique even on international scene prof bogdan góralczyk university of warsaw former ambassador to myanmar this book is a well documented and well constructed multilayered complex analytical work based on very rich research interviews with suu kyi and personal observations of the author who displays unquestioned analytical skills as such the book represents a pioneer work in burmese studies prof agnieszka kuszewska jagiellonian university in cracow none of the numerous books and articles that i have read about daw aung san suu kyi dissects her political thoughts and background as thoroughly as the book written by dr michał lubina he shows the political construction of her character her struggle her idealism her sources of inspiration and her weaknesses it is a necessary publication to read in order to understand historical and contemporary policymaking in today's burma dr marion sabrié university of rouen normandy
