despite the fact that the majority of the inhabitants of the roman empire lived an agricultural existence and thus resided outside of urban centers there is no denying the fact that the core of roman civilization its essential culture and politics was based in cities even at the furthest boundaries of the empire roman cities shared a remarkable and consistent similarity in terms of architecture art infrastructure and organization which was modeled after the greatest city of all rome itself in gregory aldrete s exhaustive account readers will have the opportunity to peer into the inner workings of daily life in ancient rome to witness the full range of glory cruelty sophistication and deprivation that characterized roman cities and will perhaps even gain new insight into the nature and history of urban existence in america today included are accounts of rome s history infrastructure government and inhabitants as well as chapters on life and death the dangers and pleasures of urban living entertainment religion the emperors and the economy additional sections explore two other important roman cities ostia an industrial port town and pompeii the doomed playground of the rich this volume is ideal for high school and college students as well as for anyone interested in examining the realities of life in ancient rome a chronology of the time period maps illustrations a bibliography and an index are also included

a synthesis of recent work in archaeology and social history drawing on physical literary and documentary sources

gustav hermansen provides a basis for constructive debate on the social and economic life of the roman city of ostia ostia unveils ancient social history architecture city planning and community life and is complete with extensive floor plans photographs and line drawings

the spatial turn has brought forward new analytical imperatives about the importance of space in the relationship between

physical and social networks of meaning this volume explores this in relation to approaches and methodologies in the study of urban space in roman italy as a consequence of these new imperatives sociological studies on ancient roman cities are flourishing demonstrating a new set of approaches that have developed separately from traditional historical and topographical analyses rethinking the roman city represents a convergence of these different approaches to propose a new interpretive model looking at the roman city and one of its key elements the forum after an introductory discussion of methodological issues internationally know specialists consider three key sites of the roman world rome ostia and pompeii chapters focus on physical space and or the use of those spaces to inter relate these different approaches the focus then moves to the forum romanum considering the possible analytical trajectories available historical topographical literary comparative and sociological and the diversity of possible perspectives within each of these moving towards an innovative understanding of the role of the forum within the roman city this volume will be of great value to scholars of ancient cities across the roman world well as historians of urban society and development throughout the ancient world

the roman empire was more than just the city of rome cities throughout the empire boasted paved roads apartment complexes and public baths the city in the roman empire presents the distinct experiences of men women and children who lived urban lifestyles in the ancient empire this book examines the pros and cons of city living including opinions of romans themselves
