the divisive nature of public school policies that influence the vast majority of america s young is tearing the country apart w e b du bois argued that racism produces general expectations that the hopes and aspirations of black americans are set before the fact by the dominant white structures in this tradition this book explores the history of race in the us by sketching the role of public schooling and its representative actors in breeding the black student achievement gaps highlighting that racism and cognitive bias corrupt students and society coupling du bois s theoretical framework and cognitive dissonance the book sheds light on the processes by which social and racial inequities are recycled and transmitted by ordinary and intelligible public school educators rather than simply define the problem it offers a set of interventions and a schematic approach to build healthy

school climates where every student is welcomed and honored

justice holmes proclaimed that great cases like hard cases make bad law he explained that this was so because the hydraulic pressures of the great case tend to distort the judgements of the justices the purpose of this book is to examine 25 great cases that arose throughout the history of the supreme court and to attempt to determine whether holmes was correct more particularly the book discusses the impact that the greatness of the case may have had on its presentation to the court the court s deliberations the decision the opinion and the law that was created

first published in 2015 routledge is an imprint of taylor francis an informa company

taking in a century of change this work focuses on how the supreme court brought the juvenile court system under constitutional control it describes the case of gerald gault an arizona teenager who was sent to reform school for making an obscene phone call

examines voting trends and political representation in the united states today with a special focus on debates over voting rights voter fraud and voter suppression and election rules and regulations including those related to gerrymandering campaign fundraising and other controversial subjects do average americans have a voice in washington are they well represented or are they marginalized do elections reflect fundamental democratic institutions and values or are they tarnished by voter suppression voter fraud gerrymandering or other factors to what extent do america s elected officials reflect the diversity of race religion gender socioeconomic background sexual orientation and political views of the wider american population

this encyclopedia explores all these questions and more it examines important mechanisms and laws shaping political representation in america in the 21st century such as term limits gerrymandering the electoral college and direct democracy ballot initiatives and referendums and the degree to which various demographic groups are represented in state and federal legislatures from latinos and senior citizens to atheists and residents of rural states it also explains the basis for escalating concerns about both voter fraud and voter suppression

education and cultural politics interrogating idiotic education is a conceptualization of protest and resistance against the cultural politics of oppression and domination of people of african descent in the caribbean and north america it is also a theorization of their redemption from being victims of racism classism sexism and heterosexism the book combines the theoretical models of discrimination and oppression through the use of the axis of the social evils to critically analyze the cultural politics of education in relation to black people in the african diaspora it does this through the lens of critical redemptive education which is seen through an afrocentric philosophy the book illustrates how the lives of black people are constructed by slavery and colonialism which have etched their mores into the black psyche the book advocates the view that slavocracy the colonial construction of black psyche is not indelible it can be deconstructed through conscience and reconstructed through a non idiotic liberatory education using the philosophy of critical redemptive education which fosters a genuine koinonia among black communities serving as the antidote for the current black nihilism in black communities which is the legacy of our oppressive existence

for more than two centuries the u s supreme court has provided a battleground for nearly every controversial issue in our nations history this veteran

team of talented historians produces the most readable astute and up to date single volume history of this venerated institution a valuable resource for students teachers and citizens looking to better understand us constitutional history with liberty and justice for all the constitution in the classroom is designed to help teachers and students generate analysis and debate in our nation s classrooms about an aspect of us history that has produced intense disagreements about rights and wrongs constitutional history for more than two centuries americans have argued about what the us constitution permits or requires or not and what values and ideals it enshrines or not indeed who is to be included or not in the very definition of we the people this book provides abundant resources to explore key moments of debate about the constitution and its meaning focusing on fundamental questions of citizenship and rights it analyzes american history through the use and misuse of the constitution over time from early disputes about liberty and slavery to more recent quarrels over equality and dignity with a foreword by ruth bader ginsburg this book s succinct and probing essays by prize winning historians including linda greenhouse mary sarah bilder annette gordon reed eric foner sam erman julie suk laura kalman and melissa murray provide the core of the book their topics encompass woman suffrage school desegregation japanese internment mccarthyism all dramatic turning points in american history carefully selected and annotated primary sources and focused discussion questions provide teachers with the tools to bring constitutional history into the classroom with ease as this book amply demonstrates united states history is constitutional history a companion website provides additional resources for teachers

with quiet eloquence lane sunderland argues that we must reclaim the fundamental principles of the constitution if we are to restore democratic

government to its proper role in american life for far too long he contends the popular will has been held in check by an overly powerful supreme court using non constitutional principles to make policy and promote its own political agendas his work shows why this has diminished american democracy and what we can do to revive it sunderland presents a strong thoughtful challenge to the constitutional theories promoted by ronald dworkin archibald cox richard epstein michael perry john hart ely robert bork philip kurland laurence tribe mark tushnet and catharine mackinnon an enormously diverse group united by an apparent belief in judicial supremacy their theories he demonstrates undermine the democratic foundations of the constitution and the power of the majority to resolve for itself important questions of justice central to this enterprise is sunderland s reconsideration of the federalist as the first most reliable and most profound commentary on the constitution the federalist he states is crucial because it explains the underlying theory of the constitution as a whole a theory that gives meaning to its particular provisions in addition sunderland reexamines the declaration of independence and the work of hobbes locke and montesquieu in order to better define the nature and limits of their influence on the framers his reading of these works in conjunction with the federalist shows just how far afield contemporary commentators have strayed sunderland deliberately echoes and amplifies madison s wisdom in federalist no 10 that the object of the constitution is to secure the public good and private rights and at the same time to preserve the spirit and form of popular government to attain that object he persuasively argues requires that the judiciary acknowledge and enforce the constitutional limitations upon its own powers in an era loudly proclaiming the return of popular government majority rule and the will of the people that argument is especially relevant and appealing

this book is the first comprehensive reasoned and sympathetic analysis of how scalia has decided cases during his entire nineteen year supreme court

tenure ralph rossum focuses on scalia s more than 600 supreme court opinions and dissents carefully wrought passionately argued and filled with well turned phrases which portray him as an eloquent defender of an original meaning jurisprudence he also includes analyses of scalia s court of appeals opinions for the d c circuit his major law review articles as a law professor and judge and his provocative book a matter of interpretation jacket

the demise of the confederacy left a legacy of legal arrangements that raised fundamental and vexing questions regarding the legal rights and status of former slaves and the status of former confederate states as harold hyman shows few individuals had greater impact on resolving these difficult questions than salmon p chase chief justice of the united states supreme court from 1865 to 1873 hyman argues that in two cases in re turner 1867 and texas v white 1869 chase combined his abolitionist philosophy with an activist jurisprudence to help dismantle once and for all the deposed machineries of slavery and the confederacy in these cases chase sought to consolidate the gains of the civil war era while demonstrating that the war had both preserved the precious core characteristics of the federal union of states and fundamentally improved the nature of both private and public law in re turner was a private law case decided at the federal circuit level it involved a black woman s claim that she a recent slave was being held in involuntary servitude elizabeth turner s mother had apprenticed elizabeth to their former master who had not abided by his contractual obligations to provide elizabeth with training and compensation substantively keeping her in slavery chase s decision which relied upon due process and equal protection implications in the thirteenth amendment and 1866 civil rights act confirmed the rights of emancipated slaves to bargain and contract with employers on a parity with white workers texas v white was a public law case decided in the supreme court it revolved around the issue of whether the holders of u s bonds seized and sold by the confederate state of texas could demand payment after the war from that state s newly reconstructed

government in effect chase and his associate justices were asked to determine the legality of actions committed by all former confederate states and thus to define what constituted a state chase s opinion reaffirmed the union s permanence and that of the constituent states in the federal union and the states duty to respect the legal rights and obligations of all citizens because states were people as well as acreages and institutions hyman s exemplary analysis of these cases reveals how their political legal and constitutional aspects were so inextricably interwoven they secured for chase a rostrum for both moral and legal reform from which he asserted his strong views on the fundamental rights of individuals and states in an era of sporadically increasing federal power hyman s study provides a much needed reevaluation of those cases both in the context of chase s life and in terms of their mark on history

focuses on america s first attempts at empire building through a string of u s supreme court decisions in the early part of the 20th century that tried to define the legal and constitutional status of america s island territories puerto rico cuba and the philippines among others and reveals how the court provided the rationalization for the establishment of an american empire

through a close analysis of legislative proceedings and of the precise language used maltz builds a strong case that congressional actions on civil rights including statutes such as the freedman s bureau bill the district of columbia suffrage bill and the civil rights act of 1866 as well as the thirteenth fourteenth and fifteenth amendments of the early reconstruction era generally reflected the ideology and intentions of the more conservative republicans these moderates advocated limited absolute equality rather than total racial equality and opposed the undue federal regulation of private

and state actions

the concise encyclopedia of democracy is a single volume version of the award winning encyclopedia of democracy not a condensation the new concise was created to address the special needs of smaller libraries the more than 300 articles include concepts countries and individuals emphasizing the historical and practical rather than the strictly theoretical while the coverage is international in scope special emphasis in the concise is given to the democracies of the west as well as including the most important entries from the four volume original work the concise encyclopedia of democracy also includes new entries on the constitution of the united states general government practices in the democracies etc the 150 maps photographs charts and timelines are designed to present the researcher with information in a concise visual form

closely examines on of the supreme court s most infamous decisions that went far beyond one slave s suit for freeman status by declaring that all blacks freemen as well as slaves were not and never could become u s citizens bringing an end to the 1820 missouri compromise while also resulting in the outrage that led to the civil war
