written with rare mastery and a sure sense of the essential this concise general history of modern east asia offers students and general readers an understanding of this dynamic region from a global perspective it is the ideal introductory text for college survey courses in asian and international studies following an introductory discussion of the regional concept the first two chapters lay the foundations chapter 1 describes east asia s geographical human cultural economic social and political setting as it has evolved over the past several millennia and the three major belief systems confucianism buddhism and islam chapter 2 presents a panoramic view of the region ca 1800 the chapter introduces the dramatis personae the chinese japanese koreans vietnamese thai burmese indonesians filipinos and others and describes their interactions with each other and with imperial china the following three chapters deal with european expansionism and east asians responses to the civilizational challenge the stirrings of nationalism in reaction to european colonial rule and the remarkable rise of imperial japan chapters 6 and 7 trace japan s bid to lead a pan asianist revolt against the twin threats of western liberalism and soviet communism and the ensuing pacific war chapters 8 and 9 span the cold war era from postwar u s hopes for a pax americana to the division of east asia into communist and anti communist blocs the sino soviet split and the sino american rapprochement of the early 1970s open the way to the east asian miracle and a resurgence of east asian regionalism surveyed in chapter 10 a concluding chapter considers the prospects for continued economic dynamism and the balance of nationalism and pan asian trends in shaping the future

china s strategy towards east asian regional cooperation since the asian financial crisis of 1997 98since the asian financial crisis of 97 98 china has taken a leading role in east asian economic cooperation initiatives centred around the powerful asean plus three mechanism the association of southeast asian nations plus south korea japan and china this brand new book from the international poverty reduction centre of china s qianqian liu outlines exactly how and why china has pursued economic and diplomatic cooperation throughout the post crisis years methodical and richly detailed it offers a unique empirical analysis of china s actions and involvements with asean plus three and the east asian summit author qianqian liu s integrated theoretical approach captures and pieces together the intricacies of chinese interactions with its east asian partners enabling the reader to better understand the dynamics of china s regional behaviour and foreign policy together with research based insight and data covering all aspects of this critical subject the author proposes two key assertions firstly that china us relations have played a significant part in china s increasingly cooperative approach to china east asia relations and secondly that china has maximised mechanisms of regional economic cooperation as a means of enhancing its influence in east asia key features and benefits unveils china s perspectives on regional cooperation by extensively exploring chinese source material and materials information only now available thanks to increased openness and liberalisation offers a key contribution to wider theoretical debates on china s rise and regional tensions examines the vital interconnections between the key

contemporary international relations theories realism liberalism and constructivism rather than examining them as separate elements to help fully explain china s strategies and goals analytical coverage of china s involvement with both asean plus three and the east asia summit offers comparisons between european regionalism and east asian regionalism reveals chinese perspectives on how china us relations have helped shape china s approach to east asia economic cooperationregional cooperation and china s strategy towards east asia is published as part of a brand new series from paths international china and international organisations series published in association with china s social sciences academic press contents 1 introduction2 the historical development of east asia and the rise of china before 19973 the asian financial crisis china s accession to the wto and china s participation in regional cooperation from 1997 to 19994 china s regional strategy from the end of 1999 to the end of 20055 china s participation in regional cooperation in east asia from the end of 2005 to mid 2009 6 conclusions

this book intends to examine the relationship between east asia and southeast asia across three themes historical perspectives economic flows of capital and people and socio cultural connections while a substantial number of chapters in the book focus on overseas chinese living in indonesia and their connections with china and taiwan historically and contemporarily they also provide in depth knowledge of international relationship between east asia and southeast asia part one contending regional approaches consists of four chapters that help readers understand the involvement of east asia from a historical context the first chapter on taiwan before 1975 is followed by a chapter on taiwan s strategy toward southeast asia after the 1980s the remaining two chapters focus on china southeast asia and japan southeast asia relations part two economic flows of capital people consists of six chapters that mainly examine the flow of capital and people between indonesia and taiwan from the colonial period to the present and how this flow changed both societies part three socio cultural connections consists of three chapters this part is a unique contribution to the scholarship that focuses on the transformation of both traditional and popular culture among southeast asia china and taiwan by focusing on different agents

in china east asia and the european union specialist authors from both europe and asia reflect on the dynamic relationship between the three actors from an international relations perspective the book is a testimony to china s seemingly unstoppable rise both in the east asian region and in the relationship with the eu and its member states the authors investigate why the economic links between the european union and east asia have become so firmly established while in comparison the political bond has remained underdeveloped they conclude that the crises the eu is currently facing seriously affect its manoeuvring space vis a vis china and its neighbours both economically and politically contributors are ding chun neil duggan enrico fardella frank gaenssmantel tjalling halbertsma daniel r hammond jan van der harst elisa hörhager jing jing werner

bringing together some of the most innovative scholars in both the english school of international relations and east asian studies this volume investigates whether or not significant and distinct international social structures exist at the regional level represented by east asia and what this can tell us about international society both regionally and globally the book s main finding is that the regional dispute over how its states and peoples should relate to the western dominated global international society makes the existence of east asian international society essentially contested while this regional global social dynamic is present in many regions it is particularly strong in east asia this book will appeal to audiences interested in developing english school theory the study of east asian international relations and comparative regionalism

a common misconception holds that marco polo opened up a closed and recalcitrant orient to the west however this sweeping history covering 4 000 years of international relations from the perspective of china japan korea and southeast asia shows that the region s extensive involvement in world affairs began thousands of years ago in a time when the writing of history is increasingly specialized warren i cohen has made a bold move against the grain in broad but revealing brushstrokes he paints a huge canvas of east asia s place in world affairs throughout four millennia just as cohen thinks broadly across time so too he defines the boundaries of east asia liberally looking beyond china japan and korea to include southeast asia in addition cohen stretches the scope of international relations beyond its usual limitations to consider the vital role of cultural and economic exchanges within this vast framework cohen explores the system of chinese domination in the ancient world the exchanges between east asia and the islamic world from the thirteenth to the seventeenth centuries and the emergence of a european defined international system in the eighteenth and nineteenth centuries the book covers the new imperialism of the 1890s the manchurian crisis of the early 1930s the ascendancy of japan the trials of world war ii the drama of the cold war and the fleeting asian century from the mid 1970s to the mid 1990s east asia at the center is replete with often overlooked or little known facts such as a record of persistent chinese imperialism in the region tibet s status as a major power from the 7th to the 9th centuries c e when it frequently invaded china and decimated chinese armies japan s profound dependence on korea for its early cultural development the enormous influence of indian cuisine on that of china egyptian and ottoman military aid to their muslim brethren in india and sumatra against european powers extensive chinese sea voyages to arabia and east africa long before such famous westerners as vasco da gama and christopher columbus took to the seas east asia at the center s expansive historical view puts the trials and advances of the past four millennia into perspective showing that east asia has often been preeminent on the world stage and conjecturing that it might be so

again in the not so distant future

during the past half century u s policy in east asia was guided by a simple dictum avoid the domination of east asia by any power other than the united states increasingly however this policy approach seems questionable in a globalizing world a massively changed east asia and a much deeper u s economic involvement in the region even as east asian leaders often tell americans they want a continued u s presence for security purposes they also fear an american effort to contain china that will put them between a rising regional power and the global superpower creating dangerous tensions that ultimately would threaten the region s golden goose china s powerful economic growth engine others like some japanese would welcome a conclusion by the united states that a powerful china ultimately threatens american interests the post american century in east asia addresses major policy problems of east asia from the management of our relations with china to the north korean nuclear problem to the growth of east asian regionalism the book answers how in light of east asia s growing power and influence the united states can retain influence commensurate with its interests the transformation of the region requires us to ask whether some longstanding perspectives are still relevant as well as what changes are needed in american policy

for the first time in 50 years east asia is at peace will peace and prosperity prevail professor koh examines both optimistic and pessimistic scenarios he argues for the continued engagement of the united states in east asia and for a stable relationship between the united states japan and china

this book offers an interpretive and critical comparative politics analysis of the post 1945 development trajectory of the broad east asian region and its component countries the discussion considers the region and its countries in terms of their historical legacies colonialism war and the preoccupation with development and argues that each country has constructed their own way of ordering political life each created its own political logic arguing that it is an error to judge these countries performance against the model of europe or america preston discusses the era of expansionist colonialism the episode of breakdown in highly destructive regional warfare in the early twentieth century and the subsequent diverse records of china with its party state turned towards a nominal state socialism hong kong confronting the problems of living with distant masters singapore with its elite directed national building and thailand mired in elite resistance to popular political reform

russia has generally been neglected in the academic and policy discourse on regional integration in east asia this book fills this gap with particular

attention to the role of pacific russia in the deepening regional integration in east asia it examines the increasingly diverse foreign policy interests of russia related to emerging economic and political realities of the world and russia s potential role in the regional integration in east asia topics discussed include russian strategic interests and security policy in east asia generally russia s bilateral relations with china japan and the korean peninsula opportunities and challenges energy and immigration presents for russia and its engagement with east asia and russia s present and future roles in regional integration in east asia

east asia is normally identified as a group of countries lying along the western edge of the pacific ocean but scholars have begun thinking about a east asia that is a community rather than a set of sovereign states this book looks at east asia from a northeast asian perspective

this book examines the need for greater east asian cooperation and the challenges to this grand endeavor with differing national outlooks how can east asia preserve peace prosperity and stability amidst geopolitical competition to answer this question the volume examines the political and economic relations between beijing and its neighbors against the backdrop of two trends the power shift from the west to the east in the aftermath of the american financial crisis and the ongoing eurozone crisis as well as the rise of china

david c kang tells an often overlooked story about east asia s comprehensive security arguing that american policy towards asia should be based on economic and diplomatic initiatives rather than military strength
