a benchmark two volume history published in 1841 and the most popular work of its kind among the early victorian public

excerpt from a history of india from the earliest times to the present day it were greatly to be wished that mr wilson instead of writing notes to and continuing the history of mill had become himself the historian of our indian empire i know no one so well qualified to write that history in all its fulness with all the detail which would leave nothing to be desired for though thornton s has many merits and is written with much impartiality it is rather a popular history and the author avoids going much into detail contenting himself with general views as to mill i always regretted that he should have become the historian of india for though i have not the slightest doubt of his honesty his political notions were too utopian and his prejudices so strong that perhaps a third of his work is useless and all his elaborate reasonings and

theories are refuted by his annotator often by simply showing that he was unacquainted with the real facts and was combating a phantom of his own creation as a writer on public law and political economy Mr Mill would I think be more in his place than as a historian about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
