this book discusses recent developments relating to ethical and sustainable issues in accounting finance accounting is often seen as a technical discipline that records classifies and reports financial transactions however since the financial information produced concerns all interest groups both within and outside the enterprise accounting also has social characteristics and involves multi faceted duties and responsibilities as such in addition to basic principles and accepted rules and standards in the field this book focuses on the ethical aspects and fundamentals of this profession that accountants should also take into consideration as this is the only way to build and preserve society s confidence in accounting and increase its social credibility

basic income is an idea whose time has come and guy standing has pioneered our understanding of it as we move into an age

where work and leisure become blurred and work dissociated from incomes standing's analysis is vital paul mason shouldn't everyone receive a stake in society's wealth could we create a fairer world by granting a guaranteed income to all what would this mean for our health wealth and happiness basic income is a regular cash transfer from the state received by all individual citizens it is an acknowledgement that everyone plays a part in generating the wealth currently enjoyed only by a few political parties across the world are now adopting it as official policy and the idea generates headlines every day guy standing has been at the forefront of thought about basic income for the past thirty years and in this book he covers in authoritative detail its effects on the economy poverty work and labour dissects and disproves the standard arguments against basic income explains what we can learn from pilots across the world and illustrates exactly why a basic income has now become such an urgent necessity

in fall 2015 the newly elected trudeau government endorsed the paris agreement and promised to tackle global warming in 2016 it released a major report which set out a national energy strategy embracing clean growth technological innovation and carbon pricing rather than putting in place tough measures to achieve the paris targets however the government reframed global warming as a market opportunity for canada's clean technology sector the big stall traces the origins of the government's climate change plan back to the energy sector itself in particular big oil it shows how in the last fifteen years big oil has infiltrated provincial and federal governments academia media and the non profit sector to sway government and public opinion on the realities of climate change and what needs to be done about it working both behind the scenes and in high profile networks canada's energy companies moved the debate away from discussion of the measures required to create a zero carbon world and towards market based solutions that will cut carbon dioxide emissions but not enough to prevent severe climate impacts this is how big oil and think tanks unraveled the kyoto protocol and how rachel notley came to deliver the business council of canada's energy plan donald gutstein explains how and why the door has been left wide open for oil companies to determine their own futures in canada and to go on drilling new wells building new oil sands plants and constructing new pipelines this book offers the background information readers need to challenge politicians claiming they are taking meaningful action on global warming
