this handbook offers a comprehensive overview of the field of persian linguistics discusses its development and captures critical accounts of cutting edge research within its major subfields as well as outlining current debates and suggesting productive lines of future research leading scholars in the major subfields of persian linguistics examine a range of topics split into six thematic parts following a detailed introduction from the editors the volume begins by placing persian in its historical and typological context in part i chapters in part ii examine topics relating to phonetics and phonology while part iii looks at approaches to and features of persian syntax the fourth part of the volume explores morphology and lexicography as well as the work of the academy of persian language and literature part v language and people covers topics such as language contact and teaching persian as a foreign language while the final part examines psycho neuro and computational linguistics the volume will be an essential resource for all scholars with an interest in persian language and linguistics

the routledge handbook of second language acquisition and pedagogy of persian offers a detailed overview of the field of persian second language acquisition and pedagogy the handbook discusses its development and captures critical accounts of cutting edge research within the major subfields of persian second language acquisition and pedagogy as well as current debates and problems and goes on to suggest productive lines of future research the book is divided into the following four parts i theory driven research on second language acquisition of persian ii language skills in second language acquisition of persian iii classroom research in second language acquisition and pedagogy of persian and iv social aspects of second language acquisition and pedagogy of persian the routledge handbook of second language acquisition and pedagogy of persian is an essential reference for scholars and students of persian sla and pedagogy as well as those researching in related areas

aspects of iranian linguistics introduces readers to recent research into various properties of a number of iranian languages the volume consists of twenty chapters that cover a full range of iranian linguistics including formal theoretical perspectives from a syntactic and morphological point of view typological and functional perspectives and diachronic and areal perspectives it also contains papers on computational linguistics and neurolinguistics as well as the modern history of lexicography in iran various iranian languages are discussed in this volume including hawrami and kermanji two of the major dialects of kurdish medival classical and modern persian balochi taleshi and pamir with the exception of persian other iranian languages had not received much attention in the past thus this work as the first volume ever published on various aspects of these languages and their linguistic properties is a valuable contribution to our

understanding of a less commonly studied language family the theoretical descriptive and applied approaches pursued by various authors in this volume together with the colorful range of languages discussed provide a unique perspective that is appealing to researchers in different domains of linguistics and language studies

the eighth elex conference on electronic lexicography in the 21st century was held in brno czech republic from 27 to 29 june 2023 the elex 2023 conference with the topic invisible lexicography was hosted by lexical computing

this work gives a critical survey of all verbs attested in proto iranian based on its descendants it is accompanied by a critical analysis of the morphology and provenance

was plurilingualism the exception or the norm in traditional eurasian scholarship this volume presents a selection of primary sources in many cases translated into english for the first time with introductions that provide fascinating historical materials for challenging notions of the ways in which traditional eurasian scholars dealt with plurilingualism and monolingualism comparative in approach global in scope and historical in orientation it engages with the growing discussion of plurilingualism and focuses on fundamental scholarly practices in various premodern and early modern societies chinese indian mesopotamian jewish islamic ancient greek and roman asking how these were conceived by the agents themselves the volume will be an indispensable resource for courses on these subjects and on the history of scholarship and reflection on language throughout the world

this book traces water back to the most primitive animistic notions that are still lingering on in the shape of such rituals as qanat marriage or rain making water in the iranian philosophy is used in an attempt to find an explanation for the genesis of the universe as described in zoroastrian akhshij philosophy according to which water is one of the four fundamental elements of the creation the concept of time began to germinate in the iranian mind when they had to count the passage of time in order to divide their scarce water resources water became so omnipresent in iranian culture that it reached even the most mysterious seclusion of the sufi monks in iran s local communities water culture is a thread that runs through different types of production systems this book goes beyond indigenous water knowledge and traditional irrigation techniques and conceptualizes water as a pivotal element of iran s social identity cultural dynamics and belief systems where it examines the role of intermittent droughts in engendering and diffusing intangible cultural elements across the iranian plateau this book delves into iran s political organizations most of which

were ensnared in a water dependent lifecycle constituting a historical pattern described in this book as hydraulic collapse

the earliest farms cities governments legal codes and alphabets developed in the ancient near east four major religion judaism zoroastrianism christianity and islam began in the region ideas inventions and institutions spread to all parts of the globe from the urban centers of the ancient egyptians syrians hittites assyrians babylonians and other peoples of the biblical world for good reason is the ancient near east known as the cradle of civilization
