the second edition of assessment for excellence arrives as higher education enters a new era of the accountability movement in the face of mandates such as results based funding and outcomes based accreditation institutions and assessment specialists are feeling increasingly pressured to demonstrate accountability to external constituencies the practice of assessment under these new accountability pressures takes on special significance for the education of students and the development of talent across the entire higher education system this book introduces a talent development approach to educational assessment as a counter to prevailing philosophies illustrating how contemporary practices are unable to provide institutions with meaningful data with which to improve educational outcomes it provides administrators policymakers researchers and analysts with a comprehensive framework for developing new assessment programs to promote talent development and for scrutinizing existing

policies and practices written for a wide audience the book enables the lay reader to quickly grasp the imperatives of a properly designed assessment program and also to gain adequate statistical understanding necessary for examining current or planned assessment policies more advanced readers will appreciate the technical appendix for assistance in conducting statistical analyses that align with a talent development approach in addition institutional researchers will benefit from sections that outline the development of appropriate student databases

the wide gap between science and practice in psychotherapy is due in part to the one way direction that has mostly defined the connection between researchers and clinicians with researchers generating empirical knowledge with the hope that practitioners will implement it in their working environment this traditional approach has not been optimal in addressing the day to day concerns of clinicians or in providing easily generalizable practice guidelines in clinical routine this book offers an alternative approach to psychotherapy research based on a partnership between clinicians and researchers in different aspects of the decision design implementation and dissemination of studies conducted in day to day practice more specifically it describes how to conduct practice oriented research por by presenting studies and lessons learned in terms of obstacles faced strategies used to overcome problems benefits earned and general recommendations by eleven groups of who have been involved in por in different settings around the world the book provides tools to help clinicians be active participants in conducting clinically relevant studies and set the agenda for future research it seeks to foster collaboration between researchers and practitioners generating knowledge that can improve our understanding of the process of change and the impact of psychotherapy this book was originally published as a special issue of psychotherapy research
